Dear Mr. Greenewald,

On January 1, 2017, you filed a Freedom of Information Act (FOIA) request for “a copy of records, electronic or otherwise, of the FOIA Case Log for Calendar year 2016.”

The United States Fish and Wildlife Service (FWS) Headquarters FOIA Office received your request on January 3, 2017, and assigned it tracking number FWS-2017-00271. Please refer to this number in communications regarding this request.

We are writing to respond to your request. Please find enclosed 134 pages in portable document format, which are being released to you in their entirety. Also, because the information you are seeking is frequently requested, a log of FWS FOIA requests received is now posted online and updated at the beginning of each month in our reading room, which can be found at: <https://www.fws.gov/irm/bpim/foiaread.html>. Because the requests for December 2016 are included on this URL, we have not included them in our response.

We classified you as a representative of the news media. We do not bill requesters for FOIA processing fees when their fees are less than \$50.00, because the cost of collection would be greater than the fee collected. See [43 C.F.R. § 2.49\(a\)\(1\)](#). Therefore, there is no billable fee for the processing of this request.

For your information, Congress excluded three discrete categories of law enforcement and national security records from the requirements of FOIA. See [5 U.S.C. 552\(c\)](#). This response is limited to those records that are subject to the requirements of FOIA. This is a standard notification that is given to all our requesters and should not be taken as an indication that excluded records do, or do not, exist.

The 2007 FOIA amendments created the Office of Government Information Services (OGIS) to offer mediation services to resolve disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. Using OGIS services does not affect your right to pursue litigation. You may contact OGIS in any of the following ways:

Office of Government Information Services  
National Archives and Records Administration
