| DON-NAVY-2017-003866 | Jesse C. Epp | United States Navy | 02/23/2017 | Closed | I am requesting the results of the Naval Education and Training Command (NETC) Inspector General Hotline submission 20180052 I submitted on February 20, 2016. The case was reviewed and determined that the issues in this case are more appropriate for resolution as a command matter, it was referred to NETC N7. An inspection / investigation was conducted during the week of October 24th 2016. Since then little has change in regards to adherence to governing instructions, fraud waste and abuse still exists, and the commands primary mission regarding the delivery and development of curriculum is hindered and grossly inefficient. | DON-NAVY-2017-004494 | (b) (6) | | 03/11/2017 | Closed | I filed a formal complaint while stationed on board USS Gravelly. I was still active duty and was informed that the investigation on STGSC (b)(6) was ongoing. I then filed a complaint directly with the IG after I was discharged in April 2012. I had sent chain of events and documentation to the investigating Chief and I would like a copy of all reports. This same STGSC was later under another investigation for sexual harassment and sexual abuse again and at the end of his investigation he retired. I am requesting a copy of all documentation available, statements made by me and others about the harassment and abuse that took place. I am being treated and have been since 2012 for PTSD because of the events that took place. I filed a hotline complaint as well. Master Chief (b)(6) is who I was in contact with. |

| DON-NAVY-2017-004421 | (b) (6) | | 03/13/2017 | Closed | I have asked the Navy department for my Naval Personnel file. They are not able to find it. I request my FBI file in order to cross reference any references to my service in the Naval Reserve. |
| DON-NAVY-2017-005517 | (b) (6) | none | 03/28/2017 | Closed | I am making a records request for all information (Documents, photos, emails, texts, videos, data and other records including other requests) associated with: 1) Myself (b) (6) SS: (b)(6) I am not aware of any direct investigations or issues. However, there may be peripheral cases or files where there is. There are multiple matters. Some are related to severe violations of personal privacy and human dignity to facilitate the exploitation of commercial projects. I have been informed of government investigations from groups from the NSA however this from within the constraints where there is blocks, censorship and a net over my communications which are being monitored, suppressed and controlled by those involved exploiting. The name of the operation communicated to me was Operation Tambal. I have not heard back from the NSA confirming or denying anything. While the validity of the NSA operation probably valid, it appeared to be another fabricated email. Other branches of the government have become involved and I very much believe this is the case with a number of branches from the military or research oriented groups like the Minerva Initiative who was conducting research on social contagions on sites such as facebook. While the commercial projects related to the anti nuclear movement from the 70s and 80s. There has been exploitation of other things as well. Ultimately, begetting legal conflicts and entanglements. There has been use of my accounts to facilitate various ediscovery mechanisms and I believe some interesting advances in terms of machine learning etc (back to minerva). I do not know the specifics so cannot cite a specific case or investigation. But in including my name if matters are not accessible via that way, perhaps a discovery of your system should turn that up. I would like these records in digital format please. Thank you for your help. |

I was with Patrol Squadron 31 (VP-31) and was initially sent to Treasure Island for Court-Martial but was later kicked back. I had to extend my reenlistment awaiting confirmation of my appeal from SecNav on 2 or 3 separate months after my squadron had decommissioned. I would like transcripts of this incident for my records. I do know that I had eventually gone before an administrative separation board authorized by my commander Capt. (b) (6), and found guilty and was given an honorable discharge until my JAG attorney and I began contacting my representatives from Colorado and California; Boxer, Feinstein and Schroeder for help in reversing the decision. (b) (6) was in the U.S. Marine Corps from 12/23/1969 to 7/31/1993. He left the Corps as a 1st sergeant from Camp Lejeune. The last three digits of his social are (b) (6). His entire social and service number were redacted from the files I received. However, I can provide these files in an email attachment if they would help you locate the information I am requesting. Or you can contact archives technician (b) (6) at the NPRC and I'm sure she can help provide you with that information. The records I received said (b) (6) had been taken to court martial trial, however, transcripts and documents regarding this event were not included in the files I received. I am requesting any documents and/or transcripts that exist regarding the court martial proceedings of (b) (6) whether he was found guilty or not. | DON-NAVY-2017-002306 | (b) (6) | | 01/04/2017 | Closed | I was an honorably discharged sailor who's last duty station was NavTelSysic Cheltenham Maryland. A roommate at the base was charged with a crime of stealing money from me along with other alterations with the law which I cooperated with and helped with an ongoing investigation. I requested information after the case was tried and was told that he was found guilty. The bank returned funds from forged checks and was told by NIS that he went to Leavenworth due to not only the crime against me but other matters including drug sales. He worked as a radioman RM2 at the Pentagon during the beginning of the first Gulf War and continued for a year or so til he was arrested. I lived with him after the crime as requested by NIS and cooperated with any information requested by NIS. Thank you for any assistance. I cannot remember his name as it was a harrowing time of duty. |

To the extent that the order acts on a BCNR recommendation I also request the aforementioned materials independently under 10 U.S.C. 1556. Finally, I ask that Code 13 pursuant to statute and regulation refer this request to any other entity of the Department of the Navy that is likely to have responsive records, e.g., the office of the ASN. |
| DON-NAVY-2017-002324 | John Sharpe | | 01/04/2017 | Closed | Additionally, I request copies of any documents or other materials relating to implementation within the DON or DOD of the relief granted by ASN Parker on 21 Dec 2016 and as detailed by the attached letter. My intention in this part of the request under the FOIA and PA is not to seek access to materials that are predecisional or deliberative but to track the progress inside the executive branch with implementation of this ASN decision. I would be glad to be in touch with a FOIA POC to further explain and/or narrow the request. Naturally with this request I ask that all responsive documents be provided from any and all entities within the DON or DOD that has responsive material (rather than just Code 13 or OJAG), and I also request periodic or interim releases of responsive material as it is generated, rather than waiting until everything is available - between the date of the request and the forwarding of a nomination package via OSD to the White House and the Senate. |

| DON-NAVY-2017-002364 | Robert Powell | N/A | 01/03/2017 | Research Records | This is a request under the Freedom of Information Request for which I am willing to pay up to \$50, otherwise contact me if the cost is greater. I am requesting all communications, log books, radar data, FLIR video, and all other recorded information regarding the events surrounding any Anomalous Aerial Vehicles, Unidentified Airborne Contacts, or other terminology used to describe unknown aircraft, on the date of Nov. 14, 2004. The information to be queried would be related to the E-2C Hawkeye VAW-117, and the F-18 squadron VFA-41. To help in your search, I can provide you the following information: Approximately 80 miles southwest of San Diego on 11-14-2004, an unknown aircraft was detected on radar by the USS Princeton. Aircraft from the USS Nimitz (the VFA-41) were vectored to the area of contact. Radar contact was made by the Princeton and the VFA-41. The object observed by the F-18s from the VFA-41 was a white oval shape with no obvious means of propulsion. A FLIR video was taken of the object. I am confident the information exists and am asking for official copies to be provided me through the FOIA system. Any information that provides sensitive information on the operation of radar systems may be redacted but I am requesting copies of the radar data either in photographic or digital form as well as videos and all other information related to this event as previously described. If there is any other information that you need please let me know. I may be contacted by email or at my home address: Robert Powell (b) (6) I appreciate your help. Thanks, Robert Powell |

In accordance with 5 USC 552(a), the Freedom of Information Act, I request the following documents from IG Navy, a copy of its case file, the name of any appointed investigating officer to conduct an inquiry into this murder attempt, and any and all evidence collected. I content, same letter is patently false; there has been no inquiry into this murder by IGMC or IG Navy due to the determined and criminal interference by (b) (6). This is an additional crime; see 18 USC 3. I have attached the supporting documents to this email. (b) (6) also interfered with the investigation into the murder of (b) (6) at MCRD Parris Island in 2005, and that is why we now have a rash of murders at MCRD Parris Island. |

I tried enlisting a few times and was raised hunting, h king, camping, and in Royal Rangers. I just have this reoccurring set of memories that are shortly triggered by random stuff like 1-2 times a month that briefly have me believe that I did actually serve. Though, I have no memories with the same feelings that I would associate with real memories it gets me a little confused. And, based on how my life has been, and is, it also makes sense that I did serve and or I am crazy in thinking I am yet not really knowing for sure sometimes. I am talking to a therapist but I would like a defiant response. I did take the tests and stuff at a armed service recruitment office, have been to a navy office, and marine. And, if I actually was I really do need help if you can send me links to resources. Homeless, no money, and all the works. |

I am a former Capt, USMC and I was the subject of the investigation. The lead investigator was Special Agent (b) (6). According to his investigative notes and reports he sent suspect and victim statements to what looks like two different facilities for analysis. The first facility is LSI Laboratory for Scientific Interrogation at P O Box 17286 Phoenix, AZ 85011-7286, (602) 279-3113. It was sent on or about 9 Dec 2004. The second is the NCISHO Psychology Support Unit. SA (b) (6) report states that (b) (6) PHD was conducting a review of the investigation to conduct a psychological analysis of (b) (6) CAPT USMC. I am not sure when the information was sent to Dr. (b) (6) but according to SA (b) (6) notes he had contact with him on 23 May 05. I believe that one or more reports may have been produced that were not turned over to the defense during discovery. I am requesting a copy of these reports or any information pertaining to the outcome of the analysis if reports were not produced. |

We live along the Elkhorn River and are the caretakers of approximately 200 San Clemente Island Goats. Our goats are a few generations away from the goats that were removed from San Clemente Island in the 80s and early 90s. The San Clemente Island Goat Association was started in approximately 2005 to preserve the remaining goats and their unique genetics. There are now approximately 700 or so SCI goats left in the world. The woman that started the foundation, our friend (b)(6), is in the end stage of fighting ovarian cancer. We are in the process of taking over stewardship of the association. It is our understanding that the Navy was an integral part in saving the goats from extermination. It is our hope that the Navy may have archival information and photographs pertaining to the goats. It is our understanding that the goats predated the takeover over of the island by the Navy. We are seeking any available information, documents, photographs, film etc... of the goats while they were on the island through their removal and transport to the mainland. One of our main goals is to identify the variety of colors/patterns that the goats possessed on the island before removal. We would appreciate any assistance in helping us gather up this valuable information. It is our hope to build an online museum to help educate people on the incredible history of this amazing breed of goat. We would appreciate any assistance or guidance in obtaining available San Clemente Island goat materials the Navy may have archived or stored. Please let us know who we need to contact to investigate whether any SCI goat materials exist or are available. Thank you! |

| DON-NAVY-2017-002715 | (b) (6) | | 01/18/2017 | Closed | I enlisted in the Navy back in March 2004. I was interviewed by an agent while attending Hospital Corps "A" School in Great Lakes, IL. In 2006, while assigned to 1st Medical Battalion, Camp Pendleton, I was informed by my OIC that my security clearance was denied. I was never informed the reason why my clearance was denied nor given the opportunity to correct it. Every security manager at every duty station I was assigned to has tried to request information as to why it was denied. No concrete information was ever received. I was advised by the security manager at my last command (Naval Hospital Camp Pendleton) to resubmit a new application since it had already been 10 years. I submitted a new application for security clearance. An investigation was opened in Apr 2015. I was interviewed by an OPM agent in Sept 2015 and I disclosed all information to her. It was then closed in Oct 2015. It has been pending adjudication since then. Requesting detailed information and/or status of recent security clearance application. Thank you in advance! |

I grew up being told many different things about my dead father and I believe this will help in my quest to discover the actual truth of who my father was. I especially would like to see any documents pertaining to his health. I believe he might have been discharged because of asthma. Thank you! |

I am asking for duplication of my courts-martial that took place in Great Lakes, IL and also a polygraph test that also took place in Great Lakes, IL prior to the courts-martial. The investigation was conducted by NCIS initiated by LT (b)(6) at Service School Command. I have to correct some information at BCNR regarding my discharge from service. I signed a DD214 that was brought to me at (b)(6) by Chief (b) (6) that needed the dd214 but I was not discharged at the correct paygrade. I had made Chief prior to separation, and Senior Chief as well. I was also a Commission JAG Officer in the Navy, and took a special assignment which required me to be an enlisted service member again, with my records being sealed and everything that was discussed was sworn to privacy and G classified. I am not able to inform you of everything discussed in the meeting and why I had to take the assignment. So please contact me at your earliest regarding my petition. And I apologize for the last emails sent to you when I initially asked for records pertaining to me. There are several that has knowledge of what I am talking about, and Master Chief (b) (6) would have knowledge but Master Chief retired several years ago. You can also contact Rear Admiral Miller I think that is the current rank. Thank you very much. I am willing to pay up to the amount specified by this office. My commissioning was June or August 2002 or prior too. I barred for several states while at the Justice School. Please understand that my educational records was held by a special office in the Navy and it is hard to obtain my records and not everything was reported to Navy College to be on my records, for it was kept in a different system. |

| | | | | | To whom it may concern: My name is (b) (6). My partner and I live in Nebraska. We live along the Elkhorn River and are the caretakers of approximately 200 San Clemente Island Goats. Our goats are a few generations away from the goats that were removed from San Clemente Island in the 80s and early 90s. The San Clemente Island Goat Association was started in approximately 2005 to preserve the remaining goats and their unique genetics. There are now approximately 700 or so SCI goats left in the world. The woman that started the foundation, our friend (b) (6), is in the end stage of fighting ovarian cancer. We are in the process of taking over stewardship of the association. It is our understanding that the Navy was an integral part in saving the goats from extermination. It is our hope that the Navy may have archival information and photographs pertaining to the goats. It is our understanding that the goats predated the takeover over of the island by the Navy. We are seeking any available information, documents, photographs, film etc... of the goats while they were on the island through their removal and transport to the mainland. One of our main goals is to identify the variety of colors/patterns that the goats possessed on the island before removal. We would appreciate any assistance in helping us gather up this valuable information. It is our hope to build an online museum to help educate people on the incredible history of this amazing breed of goat. We would appreciate any assistance or guidance in obtaining available San Clemente Island goat materials the Navy may have archived or stored. Please either send us the information or information on how to obtain the above information. If none exist, please let us know who we need to contact to investigate whether any SCI goat materials exist or are available. Thank you! |

I am asking for duplication of my courts-martial that took place in Great Lakes, IL and also a polygraph test that also took place in Great Lakes, IL prior to the courts-martial. The investigation was conducted by NCIS initiated by LT (b) (6) at Service School Command. I have to correct some information at BCNR regarding my discharge from service. I signed a DD214 that was brought to me at (b) (6) by Chief (b) (6) that needed the dd214 but I was not discharged at the correct paygrade. I had made Chief prior to separation, and Senior Chief as well. I was also a Commission JAG Officer in the Navy, and took a special assignment which required me to be an enlisted service member again, with my records being sealed and everything that was discussed was sworn to privacy and G classified. I am not able to inform you of everything discussed in the meeting and why I had to take the assignment. So please contact me at your earliest regarding my petition. And I apologize for the last emails sent to you when I initially asked for records pertaining to me. There are several that has knowledge of what I am talking about, and Master Chief (b) (6) would have knowledge but Master Chief retired several years ago. You can also contact Rear Admiral (b) (6) I think that is the current rank. Thank you very much. I am willing to pay up to the amount specified by this office. My commissioning was June or August 2002 or prior too. I barred for several states while at the Justice School. Please understand that my educational records was held by a special office in the Navy and it is hard to obtain my records and not everything was reported to Navy College to be on my records, for it was kept in a different system. |

According to the NDAA: Such evaluation shall include each of the following: (1) An identification of the operational need addressed by the alternate combination cover or the unisex combination cover. (2) An assessment of the individual cost of service dress uniform items to members of the Armed Forces as a percentage of their monthly pay. (3) The composition of each uniform item's wear test group. (4) An identification of the costs to the Navy and to individual members of the Armed Forces for uniform changes identified in the Navy administrative message 236/15 dated October 9, 2015. (5) The opinions of female members of the Navy active and reserve components. This request should include any addenda and appendices to the report, which was due to the House and Senate Armed Services Committees Feb. 1, 2017. Through this request, I am gathering information to explain the reaction of female sailors to the new dress uniform items and the way forward for the Navy. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns Navy professional appearance and an issue that has been covered widely in the news media. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. |

This was at NAS JRB Willow Grove, PA. The person this was against is (b) (6) (?). I cannot remember how to spell his name, but my name has stayed the same. He was a Petty Officer 1st class (E6) and this went to Captain's Mast and the Captain of the base demoted him down to E1. I need as much information on the case as possible. |
| DON-NAVY-2017-003428 | Michael S. Dennis | Texas Tech University | 02/10/2017 | Evaluation of Records | Authors: M.A. Henderson and D.W. Knutson Sr. Indian Head Technical Report 328: Joint Final Report of the Operational Test Firings of the 8-Inch Gunfighter Long Range Bombardment Ammunition. Place of origin: Naval Ordnance Station, Indian Head, MD. I know there is a copy in the technical library at Indian Head because I spoke to an author who had used their copy. It seemed like a PAO request really, but the library got back to me and represented the Navy's FOIA office as the installations PAO office. If feasible I would also like to acquire a general index of this series of technical reports. (a list of the names of the reports, barring those whose disclosure is prohibited.) The naval gun stuff, at least based on what I have pulled from the public DTIC system indicates that all the documents relevant to my work should be declassified by now, based on a declassification standard of downgrading a step at 3 year intervals with declassification occurring after 12. This will aid in future research should I pursue the topic in a dissertation. |

| DON-NAVY-2017-003602 | Hope Seck | | 02/15/2017 | Closed | Hello, Pursuant to the federal Freedom of Information Act, 5 U.S.C.§ 552, I request a copy of all documents related to the command investigation into the Jan. 19 special operations raid in Yemen that resulted in the death of Chief Special Warfare Operator Ryan Owens and the loss of an MV-22 Osprey. This should include any recommendations and any endorsements from the relevant oversight authorities, and any photos, recording or video exhibits attached to the investigation. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information to explain the causes of CPO Owens' death and the Osprey hard landing. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns a high-profile raid covered heavily by news media that resulted in the loss of a service member and aircraft. (b)(6) has clearly stated his position within the CIA and offered assistance in my professional aspirations to work for the Central Intelligence Agency. It has come to my attention that many of the details of his previous military experience and job experience have been falsified. (b)(6) is currently involved in a relationship with my (b)(6) which further complicates the issue at hand. I believe this individual has used his exaggerated military experience and background for individual gain and recognition while impersonating a federal government employee/agent. A family member has spoken with (b)(6) BUD/S 131, SEAL Team ONE, SEAL Team TWO who has verified that anyone named (b)(6) was not listed in the SEAL Database and has never completed SEAL training. I am hoping to attain verifiable records to confirm that (b)(6) is not, nor ever was, a Navy SEAL, nor currently works for the CIA as a covert operations specialist. Any and all help would be greatly appreciated. Thank you for your time and effort on my behalf. |

| DON-NAVY-2017-003682 | Peter Greengrass | | 02/17/2017 | Closed | I'm hoping you can help me track down a Aircraft Accident Report for a McDonnell F-4B Phantom II Bureau Number 151495. This was assigned to VF-41 and I believe suffered a class B or C mishap on (or near to) 9th January 1974. If the date is correct it would have probably occurred aboard USS Franklin D Roosevelt during operations in the Western Mediterranean. This mishap eventually resulted in it being stricken (1SO - Category 1 Damage) on 30th June 1976 (it was awaiting a decision to strike from 16th January 1974) at NARF North Island. I have also seen a reference to this aircraft actually crashing on a flight test at North Island on 30th June 1976 following rework (presumably following the above mishap) Having looked at the Aircraft History Card for this aircraft I believe this is probably incorrect but can't rule it out, so if a report for circa. late 1973-early 1974 can not be located, a search in the June 76 area would be appreciated. A summary of the report will suffice that contains a full description of the mishap, total flight hours since acceptance, photos (if applicable) and if possible, the names of the flight crew and the maintenance officers statement. Thanks You Peter Greengrass. |

(2) Since October 1, 1928 through present, a list of the names and final ranks of all Naval Officers, to include Warrant Officers and above who were born in Selma, Alabama USA, who were designated as Cryptology Officers, Cryptologic Warfare Officers, or Information Warfare Officers. For clarity, these individuals are restricted line (RL) officers with current designator 181x, and former designators 161x and 164x, or those belonging to the Communications Security Group, Naval Security Group, or Fleet Cyber Command. Background: I am a former Naval Cryptology officer from Selma, AL and I am compiling a historical account about African American Naval Officers from Selma AL that will be used in a report that will be submitted to the City of Selma archives and historical societies. I want my hometown to be aware of the service of African American naval officers, as well as individuals hailing from Selma, AL who served in the Navy Cryptologic community. I would also like to start an official list of Naval Officers from Selma, AL for historical purposes. This information is of public interest and historical value, given Selma's history during the civil war (Battle of Selma), civil rights movement in the 1960s, and as the city where every recent president has visited to celebrate the annual commemoration of "Bloody Sunday." As a proud Navy veteran, I would like the public to be able to recognize Naval Officers who hail from Selma. |

Access to this valuable data was terminated in 2012 and even though Minnesota State (formerly Minnesota State Colleges and Universities) made a request to regain access there was never any correspondence back. This data can help MCMC member public postsecondary institutions increase education completion rates by creating models for the consistent, transparent, and effective awarding of credit for military training and experience that can be scaled regionally and nationally, thereby lowering the cost of education and reducing the time to completion. Attached are letters of correspondence, samples XML data fields for courses and occupations and information on MCMC. |

| | | | | | The purpose of this letter is request copies of all unclassified material relating to the conversion of a single-seat F-5E into a dual-seat F-5F. It is my understanding the conversion process involved removing the single-seat forward fuselage from a Swiss F-5E and replacing it with a dual-seat forward fuselage from a Navy F-5F. It is my further understanding that the Navy performed this conversion on three aircraft and that the project was (unofficially) named "Franken Tiger". The material that I am requesting would (possibly) be in the form of a Time Compliance Technical Order (TCTO) or a Commercial Service Bulletin (CSB). The material would describe the step-by-step instructions necessary to perform the conversion. The material may include drawings. The material may also include estimates of man-hours required to perform the tasks. My company is willing to pay the costs of reproduction and shipping of the requested material. Respectfully, Andrew Skow Tiger Century Aircraft, Inc. (Cage Code 4TP69) 101 Commercial Way, Hangar C Tehachapi, CA 93561 (661) 821-0995 |

| DON-NAVY-2017-004141 | (b) (6) | | 03/05/2017 | Closed | I would like the Navy board of corrections and military records to take a strong look at three issues that impact the Navy record of (b) (6) DT3 & FMF FSMT who was Navy Individual Mobilization Augmentation his entire career in the US Navy, but one big issue is that he has 1 year , 1 month and 23 days of foreign service/SEA duty where the foreign location and or location are redacted and he did this service between November 1st 1969-October 15th 1971 while he was stationed at NAS Meridian Mississippi which is medical and dental Naval Support Activity to NAS Pensacola Florida. on his DD214. Also one of his two TAD/TDY in his sanitized DD214 and Naval Personnel File there are two TAD/TDYs and one of the two which is on the USS Coronado when he was apart of but not limited to the 1st Marine Division, 8th Battalion when he did a CARIB Cruise from May 1972-June 1972 . I think that he may have been with the USS Coronado much earlier from March 1st 1971-May 15th 1972. Especially since there was a time that Military Sealift Command was in charge of the USS Coronado coincides with the time he served on the USS Coronado. I think (b) (6) should have received an Armed Forces Expeditionary Medal [foreign location redacted] for his time on the USS Coronado. Lastly I am confused about his service when he served 4/69-2/73 but then after leaving the navy for 7 months he returned to the HQ Navy Reserved and signed up again in 9/73 and he never got out of the HQ Navy Reserves. |

| DON-NAVY-2017-004242 | Lisa Winingham | | 03/08/2017 | Closed | Please be advised that the purpose of this FOIA request is to obtain the NCIS investigative file related to that certain incident occurring on or about July 4 - 5 of 2016, during which (b) (6) (b) (6) stabbed (b) (6) at the (b) (6) located at (b) (6). This is request is being made by a law firm retained to represent the interests of the owner of the (b) (6) which is being targeted by (b) (6) as a I kely defendant in a threatened personal injury lawsuit seeking the award of significant monetary damages. As (b) (6) was an activity duty member of the United States Navy at the time of the incident, the NCIS investigated the attack which is the subject of the anticipated and threatened lawsuit. It is believed that the NCIS file contains information related to the stabbing incident including but not limited to the identity of certain witnesses, a timeline of critical events, witness statements, interviews, and other related information which are essential to our client's ability to fully evaluate Mr. (b) (6) claims, and may ultimately lead to the discovery of exculpatory evidence. Therefore, the disclosure of the information contained within the NCIS file is vitally important to our client's ability to investigate and defend the claims raised against it. A refusal to provide the requested documents would result in significant prejudice to the rights of the (b) (6) to investigate and defend itself and thus, there is a clear, compelling and overriding public interest in the disclosure of the requested information. These public interests far outweigh any personal privacy concerns of (b) (6), who, upon information and belief, has admitted to assaulting (b) (6) and who will most certainly be compelled to provide testimony during the anticipated civil litigation initiated by the stabbing victim, (b) (6). |

Ray Mabius, Secretary, U.S. Department of the Navy EEOC No: 570-2016-00312X Agency No: 15-39721-01706 I request all non-classified emails referencing my name in whole or part between the following individuals from (b) (6) (b) (6) of NACC (b) (6). I request all non-classified email traffic between these individuals specifically between the dates of February 10th to Present, 09 March 2017. These emails were requested in the past as part of a previous FOIA request and were subject to redaction. Unredacted emails were provided as part of discovery during the above case. Particular gaps existed within the emails provided as part of discovery. The existence of the gaps was attributed to the parties involved stating that they did not keep their emails as they were not instructed to retain them under a Litigation Hold. SPAWAR failed to initiate a litigation hold in violation of DOD record retention policy. It is therefore incumbent upon the Navy FOIA office, specifically SPAWAR Command, to perform a search upon servers and storage devices utilized by the email accounts of the prior named individuals. Through this method the deleted or missing communications between the said parties can be gained and provided. Intentionally withholding requested communications which were requested during Discovery and authorized by a Federal Judge is criminal in nature. I also seek emails between myself and (b) (6), myself and (b) (6) (b) (6) and (b) (6) and (b) (6) including emails between (b) (6) (b) (6) at NACC and (b) (6). I thank you in advance for your cooperation and adherence to the rule of law. Please also provide a copy of any request for Discovery the Navy and or SPAWAR FOIA office received in regard to the above styled case. If one was not received please certify to that affect. |
| DON-NAVY-2017-004360 | (b) (6) | | 03/10/2017 | Closed | Dear Sir/Madam: I am trying to determine the ship that my father returned home from Europe at the end of WW2. His separation papers have a departure date of 8/22/45 and an arrival date of 9/11/45 but do not specify the ports. The DANFS website says the USS General CC Ballou, AP-157, left Marseilles France on 8/23/45 and arrived in Hampton Roads VA in September but no date. His name was (b) (6) and he had been assigned to the 240th Field Artillery Battalion, Battery C at the end of the war. If these dates match, then I request a copy of the Deck Log for the USS General CC Ballou, AP-157, from August 21, 1945 to September 12, 1945. Also, if a passenger/troop list exists for this voyage, I request a copy of the page that contains his name from this list. If this is not the ship but you can identify the correct ship from the information provided, then I request the same information from that ship. |

(b) (6) was crossed trained : Dental Technician 3 and Fleet Marine Forces Corpsman so that he could assist aircrew medical, aviation medicine, aerospace medicine, or flight medicine, to fill general public health and occupational and preventive medicine roles, and are only infrequently "surgeons" in an operating theater sense. Flight surgeons are typically rated aviators on flight status (i.e., they log flight hours in military aircraft as a crewmember), but are not required to be rated or licensed pilots, naval flight officers, or navigators/CSOs. They may be called upon to provide medical consultation as members of an investigation board into a military or NASA aviation or spaceflight mishap. Occasionally, they may serve to provide in-flight care to patients being evacuated via aeromedical evacuation, either fixed wing or rotary wing. |

One of the things that I require is proof of a flooding/controlled seawater leak that occurred on the patrol beginning in August of 2010 thru December of 2010. This same incident occurred identically to the first incident on the patrol beginning in October 2011 thru December 2011. I have contacted the Naval Archives and they have referred me to you. I was told to ask for this info via the FOIA and would greatly appreciate any and all help you could lend me! Please let me know what I would need to do to get this information and fees associated beforehand. As I am sure the VA will pay for the information rather than have me do it myself. |

It is becoming extremely difficult to complete every day task with in my job description with out my clearance, hence I am requesting the information on my security clearance investigation. |

We have been in correspondence with Bell Helicopter Textron, however based on the early development of the Bell 212 with the US military it has been suggested that there may be records kept by yourselves. These may include fatigue studies or similar. Can you tell me if any such records exist at NAVAIR please, and if so whether we would be able to obtain copies? | DON-NAVY-2017-005093 | David Larter | Navy Times | 03/09/2017 | Closed | Dear FOIA Officer, Pursuant to the Freedom of Information Act, I am requesting a copy of the Navy's investigation into alleged misconduct by (b)(6), former commanding officer of VP-47, that occurred shortly after his change of command in 2016. As a Navy officer who recently was entrusted with command, Cmdr (b)(6) conduct with subordinates is a matter of public interest. Furthermore, given that (b)(6) alleged misconduct is sexual in nature, and given the easily demonstrable congressional and public interest in the military's handling of sexual assault cases, the investigation should certainly be releasable, despite the fact that he had turned over command at the time of the offense. This information is being sought on behalf of Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to (b)(6). If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material, as required. Please contact me by email (b)(6) or telephone (b)(6). If I can clarify or expedite this request. | DON-NAVY-2017-005211 | alberta r. jones | | 04/08/2017 | Assignment Determination | I am respectfully requesting a copy of the complete investigation of the P3 Orion that crashed in Pago Pago in 1980 The patrol squadron was VP 50. The exact date was 17 April 1980: A squadron P-3C, BuNo. 158213, SG-03, crashed on Pago Pago. After dropping six paratroopers as part of a Samoan Flag Day celebration, the pilot purposely flew the aircraft underneath the well-briefed tramway cable despite being directly told the P-3 was not to be part of the air-show. The cable was too hard to see, the flight path was misjudged at speed, and the aircraft vertical tail was sheared completely off the aircraft before it banked and crashed as it rolled and dove into the parking lot of the Rainmaker Hotel. Six crewmen were killed in the mishap as well as one civilian on the ground at the hotel. It is a fact well documented in the accident report that the PIC (b) (6) boasted of what he was going to do the night before the air-show for a hot-dogging display, and the crash was blamed on pilot error. The CO was subsequently relieved of his command after the results of the accident investigation. These crew members lost their lives: LT(b)(6), LT(b)(6), AW1 (b)(6), AMS1 (b)(6), AD1 (b)(6) and AT2 (b)(6). |

| | | | | | Dear Naval Facilities Engineering Command, I am an academic researcher from Harvard University. I am writing to request information under the Freedom of Information Act. In particular, I would like data and documents related to the Navy's janitorial services contracts. I am interested in the following 4 documents for each contract: (Note that #2 and #3 are likely included as a part of #1). 1. The finalized contract (that which was signed with the vendor) 2. The contract specifications and the scope of the contract. This is variously known as Statement of Work, Performance Work Statement, Solicitation, etc. 3. The pricing schedule 4. Vendor responses the RFP/RFQ, including a summary of responses when available. To make the request easier to fulfill, I am open to receiving data in a database/table/flat-file format, if it exists, in place of the individual contract documents. I am attaching an .csv document with a list of contracts that I am interested in. Along with information about the date the contracts are signed and vendor information, the contract IDs are provided in columns M, N, and O (for solicitation IDs and PIDs). I have obtained this information from the Federal Procurement Data System (FPDS). All variables included in the document are from the FPDS, with the exception of request_id, which indexes the contract I am seeking. I understand that this is a large quantity of contracts. If some subset of the contracts are more centralized (and easier to find in batch), please let me know. For my academic analysis, I am willing to reduce the scope of my request for a realistic and less burdensome response time. Please email or call me to discuss the scope of this request. Looking forward to your response. Alex |

| | | | | | Pursuant to the federal Freedom of Information Act, 5 U.S.C. §552, I request a copy of all investigative documents related to the May 6, 2016, death of Seaman James Derek Lovelace, 21, who drowned during the Basic Underwater Demolition/SEAL training course. Additionally, I request a copy of all releasable documents associated with any discipline or punishment against Special Warfare Operation 1st Class (b) (6), who was removed from training other SEAL candidates as the death of Lovelace is investigated. I also request a copy of all videos associated with these investigations, some of which have been alluded in open-source reporting about the investigations. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information about the training of Navy SEALs and a potentially preventable death in a training environment. Release of the information is in the public interest because there is significant interest in SEAL training and because there is the expectation among the American people that no one should die in a training environment. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. All segregable portions of the documents should be redacted and released. I reserve the right to appeal your decision to withhold information or deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by post mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. |

| DON-NAVY-2017-005322 | Alberta R. Jones | | 04/12/2017 | Closed | I am respectfully requesting a copy of the complete investigation of the P3 Orion that crashed in Pago Pago in 1980. The patrol squadron was VP 50. The exact date was 17 April 1980: A squadron P-3C, BuNo. 158213, SG-03, crashed on Pago Pago. After dropping six paratroopers as part of a Samoan Flag Day celebration, the pilot purposely flew the aircraft underneath the well-briefed tramway cable despite being directly told the P-3 was not to be part of the air-show. The cable was too hard to see, the flight path was misjudged at speed, and the aircraft vertical tail was sheared completely off the aircraft before it banked and crashed as it rolled and dove into the parking lot of the Rainmaker Hotel. Six crewmen were killed in the mishap as well as one civilian on the ground at the hotel. It is a fact well documented in the accident report that the PIC (b) (6) boasted of what he was going to do the night before the air-show for a hotdogging display, and the crash was blamed on pilot error. The CO was subsequently relieved of his command after the results of the accident investigation. These crew members lost their lives: LT (b)(6), LT(b)(6), AW1(b)(6), AMS1 (b)(6), AD1 (b)(6) and AT2 (b)(6). |

| DON-NAVY-2017-005366 | (b) (6) | BAE Systems Southeast Shipyards Alabama | 04/13/2017 | Closed | In August, 1991 I was an enlisted Navy student and assigned TDY for training at Lowery ABF, CO. On or about Saturday, 28 Sep 1991, I attended a private party on or near Lowery AFB, CO and, at approximately 0200, was physically assaulted by an Active Duty Marine (name unknown). As a result of the assault, I received a concussion and was transported by POV to an ER, where I was examined for a head injury, and received stitches in my left eye. I was treated, released, and returned to my barracks that night. I do not recall a lot of the history surrounding this event. I do not know whether the assailant was arrested that night or not, but I do know that a Court Martial was convened at the 29 Palms Marine Corps base, approximately seven-eight months after the assault, because I testified at the Court Martial. My assailant was convicted and sentenced to six months hard labor. All of my government medical records have been lost. I am now attempting to file another disability claim with the Veteran's Administration for ongoing medical problems resulting from this assault. To support my claim, I am requesting a copy of the "Reporter result of trial" from the Court Martial. Please contact me if additional information is required. I have limited access to telephones and the Internet, so you are also authorized to discuss this request and/or release information to my VA Psychologist, (b) (6), Ph.D., Lt Col, USAF (ret.). | | | | | | Greetings, it was necessary to file a "Peace Order" (aka Restraining Order) on an ex-employee (separated from NAVAIR in the January/February timeframe). I could not put this off one more day. I fled today with St. Mary's District Court and they set the hearing date for Wednesday 19 April. I am required to bring in 4-5 pieces of documentation supporting my allegations. I understand this process does not support such a short fuse request therefore, I will accept the minimum as follows: 1. emails sent this week by the ex-employee (b) (6) to the following individuals: (b) (6). The only identifying information in the entire email is their email addresses. All should be one-page each. 2. Two emails he sent to me (February 18 and March 29). Again, only my email address needs to be redacted. 3. "Findings" of my Management Inquiry vice the entire document. Please advise what if anything can be done to expedite this request. I cannot afford to "not" have some form of documentation. Thank you for your assistance in this critical matter. V/r (b) (6) |

| DON-NAVY-2017-005655 | (b) (6) | US Department of Veterans Affairs | 04/24/2017 | Closed | Short Description : I am requesting the investigation(s) completed by the USMC following the death of my brother, 1LT (b) (6) 176th Engineer Company; 682 Engineer Battalion, Al Asad Air Base, Iraq APO AE 09333 (AAIC). His death occurred at approximately 1730 on May 6, 2016. He was found in the Engineers room at the Forward Logistic Element Building on Camp Havoc. This was a marine-controlled facility and the marines in the S-4 (Task Force Al Asad; 1st Marine Expeditionary Force) may have completed an investigation surrounding the events of his death. Additionally, my brother was accused of taking gym equipment from the Iraqi-controlled area of the base, and the marines I kely conducted an investigation of this incident as well. Please advise how I may obtain these reports and how I may find out if there were other investigations conducted by the USMC in relation to my brother's death and 'theft' of the abandoned gym equipment during a scavenging mission for building supplies. |
| DON-NAVY-2017-005658 | Eric D. Water | The Boeing Company | 04/24/2017 | Closed | I'm working on a project to compile publicly available cost/price data on military jet engines. I'm specifically interested in cost/price data available on the F404-GE-102 and F404-GE-402 engines and the engine modules (afterburner, compressor, fan, high pressure turbine, low pressure turbine and combustor). Through a Google search, I was able to find the attached document which appears to show the 2017 Engine Cost Data for Aviation Mishap Reporting. Are you able to confirm that the prices shown are indeed the price the Navy pays for these items? Any insight that you can provide would be greatly appreciated. Please let me know if you have any questions related to my request. |

I was with Patrol Squadron 31 (VP-31) commanded by Capt. (b) (6), and was initially sent to Treasure Island for Court-Martial but was later kicked back. I would like transcripts of this incident for my records. I do know that I had eventually gone before an administrative separation board and found guilty and was given an honorable discharge until my JAG attorney and I began contacting my representatives from Colorado and California. (b) (6) and (b) (6) for help in reversing the decision. I had the transcripts, which were also sent to DOD/SecNav, of this board but burned them about 5 years ago; I also believe they were sent to (b)(6) attorney's following his reinstatement. If your files indicate that records identifiable by my name are held by any other agency or facility, please provide complete contact information for that agency or facility, including: full name, mailing address, telephone number, fax number, and e-mail address. | | | | | | In response to a JCS request, Secretary Robert S. McNamara changed the Unified Command Plan's wording so that CINCLANT no longer bore responsibility for "routine" matters in sub-Saharan Africa but was, instead, responsible for contingency planning and for commanding any JCS-directed operations. In July 1961 Secretary McNamara apportioned sub-Saharan responsibilities as follows: Military Assistance Program (MAP) to USCINCEUR and the Secretary of the Army, Congo air evacuation to USCINCEUR, and the Congo sea evacuation to CINCLANT.51. So under FOIA I would like confirmation of this change from a declassified document from the Office of Secretary of Defense and Joint Chief Staff FOIA office that clearly states that United States Atlantic Command which includes both Navy Fleet Atlantic and Fleet Marine Forces Atlantic from 1961-1992 were no longer obligated to matters in Sub Saharan Africa or Europe during the height of the Cold War from 1961-1992. (b) (6) served in the US Navy from April 1969-October 1971 and he was stationed at NAS Meridian, MS and HQ 2nd FMF Lant Camp Lejeune, N.C from October 1971-May 1972; and July 1972 Navy Atlantic Fleet and FMF Lant his entire active duty career but he did 7 additional TAD/TDYs that include additional foreign service and since he was medical and dental naval personnel he was also administratively technically under the jurisdiction of BUMED's Medicine East Headquarters which was and still is today, Navy Hospital Pensacola, FL while he was stationed at both NAS Meridian, MS and HQ 2nd FMF Lant Camp Lejeune, N.C. |

According to the USNA Museum, the bell was part of their collection and was loaned to the Naval Regional Medical Clinic in Annapolis and was discovered missing in October 1979. After an investigation by NIS (later NCIS), it was deemed to have been stolen. I am researching the SMS Cormoran as part of the centennial of her scuttling in Guam and would like to read the detailed notes on the case. | DON-NAVY-2017-005722 | Miguel Lampon | | 04/25/2017 | Closed | Under the Freedom of Information Act, I am requesting a copy of any unclassified Naval message written by Rear Admiral Wright to the U.S. Naval Fleet regarding Operation Fiery Vigil (the evacuation of U.S. Forces from the Subic Bay area of the Philippines after the eruption of Mt. Pinatubo on June 9, 1991). Rear Admiral Wright's message was dated on or about 15 June 1991 and the designation (COMCARGRU THREE 231010Z Jun 91). I have not personally seen the message since 1991, when I was a US Marine NCO stationed at the MCAS Futenma. If this is the message I am remembering - it names me specifically for my role in the alerting Marine units at Marine Air Logistics Squadron 36 (Okinawa) to the events that led to the evacuation of Marine Air Units at Subic Bay. It is possible that this message number is not the one of which I was referenced in. However, in the search for that specific message it should begin here. I received the message number from documents obtained in a previous FOIA request from Marine Corps HQ Quantico (DON-USMC-2016-007026) (June 2016). Should privacy requirements entail the need to black out personal information, feel free to do so. However, if I am listed in the message, I request that my name not be redacted. |

| DON-NAVY-2017-005870 | Wendy Halloran | 12 News | 04/28/2017 | Closed | I am requesting the Navy's investigative records on former Commander Dr. (b)(6). He served as a Navy Medical Examiner/Medical Officer. According to records I obtained from Virginia's medical board, in 2011 (b)(6) was a Navy Medical Examiner working at the Portsmouth Naval Medical Center and was on active duty at the time he took a deceased Marine Corp sergeant's brain home with him to Virginia Beach for his children to handle while his wife took photographs. (b)(6) had gone to Camp Lejeune, North Carolina to retrieve the brain from the naval hospital and was supposed to transport it to the Portsmouth Naval Medical Center. Dr. (b)(6) wrote that his hospital privileges were suspended at Naval Medical Center Portsmouth during an investigation in 2012 and that the Surgeon General of the Navy ultimately decided he should retain his privileges but he left the Navy before reinstatement. An attached document shows he received a written reprimand for failing to obtain permission to engage in off-duty employment, for dereliction of duty by failing to maintain control of evidence in an ongoing death investigation and for false official statements about his off-duty employment. A peer review panel resulted in adverse action against his privileges. But the final outcome is unclear. That is why I need all of the records. In this FOIA request I would like all records allowed. I would like all photographs as well and any audio/video recordings you may have. I also requested (b)(6) official Navy photo from LT (b)(6) but she indicated it has his social security number on it and I would have to file a FOIA request. I asked if it could be expedited and she said something to the effect that it might be possible but the FOIA request must be filed first. Can you please coordinate with her so I can get his official Navy photo before next Wednesday. Thank you for your time and consideration. Wendy Halloran |

| DON-NAVY-2017-005900 | Colin T. Atagi | The Desert Sun | 04/28/2017 | Closed | I'm a reporter with The Desert Sun newspaper in Palm Springs. I'm requesting information regarding arrests involving Twentynine Palms Marines dating back to 2007. We've written about incidents as they occur, but we are looking closely into this matter in response to two recent incidents: Former Marine (b)(6) was convicted last year of murder and current Marine (b)(6) is a suspect in a double homicide. We would like to know how many Marines have been arrested in the past decade and the types of crimes involved in each incident. Details, including dates and locations, also would be useful, but we understand a response may be prolonged if we ask for too much information. So if those specifics aren't readily available, the number and types of arrests will suffice. Additionally, we would like details on the base's procedure when it comes to handling Marine arrests. We'd like to know: What actions you take to discourage arrestable behavior, your approach immediately following an arrest and your response if a Marine is convicted of a crime. Furthermore, at what point do you feel it's appropriate for a Marine to be discharged following an arrest? And how many Marines have been discharged? |

| DON-NAVY-2017-005948 | Joanne J. Nesbitt | | 05/01/2017 | Closed | I have exhausted all resources to gain access to the Deck Logs for the USS Lynde McCormick (DDG-8). The Deck Logs for 1969 for the USS Lynde McCormick are all "missing" per the National Archives and the Historic Naval Society. I have attempted several times to find them, but the only information I can get is that they are "Classified" and will not be released. The VA will not accept anything except the Deck Logs (or coordinates) which prove the ship (USS Lynde McCormick DDG-8) entered "brown water" while in Viet Nam. I am therefore requesting the ship's coordinates for the following dates as taken from the 1650 Report: 1. February 8, 1969 through March 14, 1969. 2. March 21, 1969 through April 4, 1969. 3. June 11, 1969 through June 21, 1969. Since the VA will not put the ship on the "List of Ship's Exposed to Agent Orange" without this information, I am counting on you to provide the coordinates I am requesting as soon as possible. Thank you for all the men still alive on the McCormick and suffering from the effects of Agent Orange. |

I request a copy of the complete investigative file pertaining to an investigation conducted by LCDR (b) (6) at the direction of CAPT (b) (6) surrounding an alleged hostile work environment in Code 1014. To the best of my knowledge, the investigation began somewhere early March 2017 and concluded mid to late April 2017. Through this FOIA, I seek the complete investigative file, including, but not limited to, the report of investigation and any and all statements submitted by anyone questioned, including, but not limited to Ms. (b) (6), Ms. (b) (6), and Ms. (b) (6). In addition to any written statements I would also like any transcripts, summaries, notes, and/or memory joggers of any oral statements. I would like a copy of any and all evidence presented during this investigation. I would also like a list of those NSWCDC officers, officials, and employees that have officially or unofficially had access to the file or a copy of the file in their possession. I seek this information to prepare for a mediation surrounding this matter tentatively scheduled for May 16-17, 2017. I believe that 5 U.S.C. Section 552(a)(4)(A)(v)(II) requires that you provide the first 100 copies to me at no charge. I do not believe this information should exceed that. As this information is needed in order to participate in mediation as an NSWCDC management official, it should be provided to me freely and at no cost. Notwithstanding, I am willing to pay fees for this request up to a maximum of \$100.00. If you estimate that the fees will exceed this limit, please inform me first. |

| | | | | | Good Afternoon Ali, PEO(U&W) submits the attached information paper and requests a FOIA exemption letter so that the National Academies may use portions of the paper in their forthcoming report to CNO. The original email from the National Academies requesting a FOIA exemption is provided directly below this message. We have reviewed the document and have determined that government interests will be harmed by the release of this information to the public. Specifically, release of this information to the public would harm government interests by detailing future plans and processes and would provide the private sector with substantial resources to make investment decisions. On these grounds, we request an exemption from the FOIA requirement. We are standing by for further information on and assistance with the addition of FOIA exemption numbers as required. Any assistance/education you can provide regarding appropriate exemption numbers for this document would be greatly appreciated. Thank you. | | | | | | This request is submitted under the Freedom of Information Act (FOIA). The following general Category 1 and Category 2 information is provided. This request is for a copy of the Secretary of the Navy (SECNAV) retirement grade determination letter (probably with an SSI Code of 1920, and probably dated mid-late 2010) in the matter of Colonel (b) (6) USMC. In/about 2010, then-Col (b) (6) accepted and received non-judicial punishment (NJP) administered by the Commanding General, U.S. Marine Corps Forces Pacific (CG, MARFORPAC). The NJP was centered on misconduct (e.g., adultery, fraternization, and associated conduct unbecoming) by Col (b) (6) while he was the Commanding Officer, Marine Corps Helicopter Squadron 1 (HMX-1), as well as an order violation (e.g., contacting a subordinate witness). Subsequent to the NJP, and in lieu of a board of inquiry, Col (b) (6) submitted a retirement request to SECNAV, via the CG, MARFORPAC and Deputy Commandant, Manpower and Reserve Affairs (DC, M&RA). CG, MARFORPAC recommended retirement in the inferior grade of O-5/Lieutenant Colonel. As stated above, I believe that SECNAV would have made the retirement grade determination in mid-late 2010. Thank you in advance for the time and assistance in processing this request. -John A. Mannle |

Films are an award-winning production company who specialize in high-quality, distinctive factual documentaries for both UK and US broadcasters, including the BBC, National Geographic, Discovery and A&E. We are producing a returning series for the US Channel, Investigation Discovery. For this series we are currently researching the death of Kimberley D. O'Neal in 2004 and the subsequent conviction of Sgt. Archie O'Neil Jr. The documentary series explores stories in which relationships have developed despite certain opposition and ended in tragic circumstances. We hope to raise awareness about a wide range of issues and provide a fair portrayal of events. As such, I wanted to ask to access records relating to Sgt. O'Neil's case - namely written court and case files, if they are releasable to us. Please let me know if you need any further information. I look forward to hearing from you. | DON-NAVY-2017-006280 | Yoko Nagasaka Myers | Nichimy Corporation | 05/08/2017 | Closed | Dear Sir/Madam, My name is Yoko Nagasaka Myers from Nichimy Corporation USA office. Currently, we are doing research on 2 helicopter (CH-46) crashes in Okinawa. One was on August 2nd, 1973 and another one is on June 24th, 1975. We are looking for information about the crash site or map or helicopter log book and other documents. Does your archive have any materials about the crash? At National Archives, we went through US Marine materials including Command chronologies: 1st Marine Wing, 36th Marine Air Group, and 164th Marine Medium Helicopter Squadron and other materials. Some documents mentioned about these crashes, but they described each crash with only one sentence. Then, I asked about those 2 incidents at Archives Branch, USMC History Division. The archivist told me that I had to require a FOIA request to gain access. I attached articles related to these 2 crashes from "Star and Stripes". Thank you very much for your time and assistance. Sincerely, Yoko Nagasaka Myers Nichimy Corporation |

| | | | | | Freedom of Information Act Request: Request information regarding the disposition of "SWIMS" computer hard drives held in inventory by a Direct Support Element onboard USS MIAMI (SSN 755) during the year 2005. Specific information requested: were these computer hard drives discovered on or about 2014 (or during any year before or after 2014) at a Direct Support Element storage area? Background: These computer hard drives were originally reported as "missing" during a JAGMAN investigation that took place at SUBGRU TWO, Groton, CT in 2006-2007. Subsequent to this investigation, it has come to my attention that these computer hard drives were located in 2014 in a Direct Support Element storage area, most likely at the National Security Agency location in the Washington DC metro area. Impact: Information regarding the potential change in characterization of the status of these computer hard drives from "missing" to "held in inventory" is of vital importance, since this information may be favorable in updating Navy military personnel and non-judicial punishment records of officers that served under me during my tour of duty as Commanding Officer, USS MIAMI (SSN 755). The assistance of you and your staff in this matter is greatly appreciated. Sincerely, Joseph B. Wiegand Former Commanding Officer, USS MIAMI (SSN 755) Telephone: (b) (6) |

I recently requested my records to reflect 4 years of service based on being discharged for misconduct that was reverted in 2014. The board states in its own words and I quote "The board concluded that there was sufficient evidence of misconduct in your record such that you had not been wrongfully discharged" end quote. I have looked through my OMPF in great detail and cannot find this sufficient evidence but just the one NJP which was suspended. I am respectfully requesting to receive any documentation that supports "sufficient evidence of misconduct" as my OMPF does not support the claim the board denied me of. The employee now faces a disciplinary hearing on Thursday and they still have not been able to receive a copy of the investigation into the instructors actions in the classroom. Attached is a more detailed explanation of the situation and the union is requesting that no disciplinary hearing be held until they are able to find out if the Navy appropriately investigated the actions of the instructor and provide that evidence to the employee. | DON-NAVY-2017-006866 | Claude Morita | | 05/25/2017 | Closed | Theodore Roosevelt and Franklin Delano Roosevelt were separately Assistant Secretary of the Navy. The war plan against Japan was influenced by eugenics theories popular during the period and only reinforced racism against Japan and Japanese residents in the US and the Western Hemisphere. Assistant Secretary of the Navy Theodore Roosevelt, 1897-1898, and Assistant Secretary of the Navy Franklin Delano Roosevelt, 1913-1920, helped in the development of War Plan Orange against Japan. It was an offensive plan for restraining a nation behaving in an unbecoming way for a minority people. War planning was centered on naval power since it was the primary force used by military forces in the Pacific area. Unfortunately, Theodore Roosevelt and, to a lesser degree, Franklin Roosevelt, also were supporters of eugenics theories. So much so that the US racist beliefs were adopted by the Nazi regime in Germany. US immigration policies during the period reflected increasing restrictions on Asian races with their total exclusion in 1924. Nothing similar was placed on the majority racial groups. As early as August 10, 1936, Franklin Delano Roosevelt, as President, had secretly ordered the preparation of concentration camps for Americans of Japanese ancestry in the United States. This fact had been uncovered by reporter Mike Feinsilber and revealed in a Honolulu Star-Bulletin newspaper article, on February 10, 1983. He reported that the "Military Kapt AJA (Americans of Japanese Ancestry) Internee List Even Before 1936." Concentration camps normally are a corollary of wars. He had harbored enmity of uncommon persistence. Later, after the Pearl Harbor attack, on 19 February 1942, President Roosevelt issued Executive Order 9066. This order authorized the Secretary of War to prescribe certain areas as military zones, clearing the way for the Internment of Japanese-Americans, German Americans, and Italian Americans into concentration camps in the United States. |

Manne | Pitt Law Veterans Practicum | 05/25/2017 | Assignment Determination | We are trying to determine if Captain (b) (6) was designated as a General Court Martial Convening Authority (GCMCA) in 1991. Captain (b) (6) was the pre-commissioning captain of the carrier USS George Washington in 1991. Since he did not command a fleet, he would not be a GCMCA under the UCMJ, but he might have been designated by Secretary of the Navy to hold GCMCA. We are seeking any documents that show that Captain (b) (6) held GCMCA in 1991. This might be a specific designation of authority, or a blanket delegation to individuals of his rank or position. We are an educational institution, and should be so treated for fee purposes. |

We were transferred from our ship via the Captains Gig (Small Boat) that we used to go ashore. We docked at the river patrol boat base. Any repair records to the Evaporator #2. I'm also looking for. Any records of this being turned off for repairs is helpful also when it was put back on line after repairs. |

As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. This information is sought on behalf of Military.com for dissemination to the general public. Release of the information is in the public interest because it concerns a public figure who represents the President of the United States and also continues to represent the Navy. Hence the Office of the Secretary as well as the ITA (if successor to the "Asia-Africa Division of the Office of Country Marketing") may have responsive records. This FOIA requests records relating to the legal determination that 15 USC 142(b) is restricted to Hong Kong and Taiwan since 1950. Mongolia was an independent country and then became part of the USSR, which might explain why the Departments of Commerce and State ruled that Mongolia was not within "China" under Section 142(b). Hence DOC and DOS Office of Mongolian Affairs may have records regarding the China Trade Act. In the 1950s the US recognized the right of Tibet to autonomy (see Foreign Relations of the US), but considered Tibet legally under the suzerainty of the Republic of China (government-in-exile, located on Formosa, with its Mongolian and Tibetan Affairs Commission). Yet, Tibet in Section 142(b) could refer to the people and not any boundary geographic, of "Tibet"; and thus apply to the Government in Exile of Tibet at Dharamsala and its people of Tibet. Records thus may exist within the State Department or Commerce, in the abovementioned offices, or the Office of the Historian for the Foreign Relations of the US Series. US bases on Formosa could constitute Section 142(b) "any territory leased by China to any foreign government"; if |

| | | | | | I understand the Navy CID tracks criminal incidents reported to it and collects that into one or more datasets shared with other offices for annual reports (like this in 2013), submissions to data distributions like the Defense Incident-Based Reporting System (known as DIBRS), among other things. I'm writing to try to figure out how I would go about requesting a copy of appropriate dataset that contains all reports of felony-level crimes made to Navy CID on Navy or Marine installations, no matter who the accused subject or alleged victim is (a service member, a service members' spouse or dependent, a DOD civilian or a DOD contractor, or an ordinary civilian such as myself). This type of dataset appears to be the basis for many of the charts in the 2013 annual crime report, for instance. |

| | | | | | Dear FOIA Officer: This is a request under the Freedom of Information Act. I am a credentialed member of the US news media and the Pentagon press corps. I request totals of all combat sorties, close-air support attacks and/or airstrikes, and munitions releases conducted by US Navy aircraft (to include fixed-wing, rotary and remotely piloted aircraft) from October 1, 2001 through May 30, 2017 for the following operations: - Operation Enduring Freedom - Operation Resolute Support - Operation Freedom's Sentinel - Operation Iraqi Freedom - Operation New Dawn - Operation Inherent Resolve It is my understanding that a full and complete tally of individual service component data may NOT be included within the annual Airpower Statistics "rollup" compiled and published publicly by United States Air Forces Central Command's Combined Air and Space Operations Center (i.e. Combined Forces Air Component Commander.) I request you not limit your response only to that data, though I may be willing to revise this request to accommodate your off-the-shelf record keeping. To help you determine my status for the purpose of assessing fees, please note that I am a journalist with Military Times, the largest news organization dedicated to covering men and women in uniform around the world. I respectfully request a waiver for any fees related to this request. If that is not possible, I am willing to pay up to \$100 for processing. If you believe the fee will exceed that amount, please contact me before fulfilling this request and provide a cost estimate. You are welcome to contact me to discuss any aspect of my request. My phone number is (b) (6) . My email address is (b) (6) . Thank you. Sincerely, Andrew deGrandpre Senior editor and Pentagon chief Military Times Washington |

| DON-NAVY-2017-007399 | Mark Olinger | | 06/11/2017 | Closed | Request that US Navy N-4 provide a report concerning the claims made by former Secretary of the Navy Ray Mabus, the costs transitioning to alternative energy sources. Specifically, in 2012 when he proposed a demonstration of his "Great Green Fleet" proposal, in which ships would sail during a major exercise, Rim of the Pacific, using alternative biofuels. The batch of algae-based biofuel purchased by the Navy for the exercise cost \$12 million for 450,000 gallons, working out to \$26 per gallon, much more than traditional fuel costs. He claimed in media interviews earlier this year he would realize his vision this year, when the John C. Stennis carrier strike group deployed using a beef tallow-based drop-in alternative fuel blend for just over \$2 per gallon. It is my understanding that the destroyer USS Mason was filled with biofuel that included 5.5 percent palm oil and cost \$1.99 per gallon. The Navy has characterized that as a success, but was this a one off acquisition or can U.S. suppliers meet the existing biofuel requirements? Or are they included in RFPs as a goal? |
| DON-NAVY-2017-007400 | Mark Olinger | | 06/11/2017 | Assignment Determination | As the original classification authority request that approve the release of the records of Observation Squadron Sixty-Seven (VO-67) for the period Feb 1967 - July 1968. was a clandestine United States Navy military intelligence aircraft squadron based in Thailand during the Vietnam War. Created in February 1967, the unit was deactivated in July 1968. During its period of activity, the squadron mainly flew missions over the Ho Chi Minh trail in Vietnam and Laos under the MUSCLE SHOALS mission known as Operation Igloo White, deploying electronic sensory devices from their aircraft. The squadron flew combat missions for nine months and sustained a 25 percent loss rate. It was disestablished in July 1968, and the Air Force took over the mission until 1972. |
| DON-NAVY-2017-007401 | Mark Olinger | | 06/11/2017 | Assignment Determination | Will I receive a formal notification of my request? Or is the interim response that received going to be all the information I am going to receive? As the original classification authority request that records for Heavy Attack Squadron (VAH-21) for the period 1 September 1968-16 June 1969, be released. VAH-21, nicknamed the Roadrunners, was a short-lived Heavy Attack Squadron of the U.S. Navy, based at Naval Station Sangley Point, Philippines. The squadron flew the specialized AP-2H version of the Lockheed P-2 Neptune aircraft, of which four examples were converted from standard SP-2H airframes. The Dictionary of American Naval Aviation Squadrons only has one page on this squadrons history. |
| DON-NAVY-2017-007402 | Mark Olinger | | 06/11/2017 | Closed | As the original classification authority request that the records for Cruiser Scouting Squadron Seven (VCS-7) for the period 1940 - 1946, be released. During the Second World War, the skies over France and Germany were the responsibility of Britain's Royal Air Force and the United States Army Air Forces. US Naval aviation had only limited opportunities to engage Hitler's armed forces. Although no fast carrier task force was present to support the landings at Normandy on 6 June 1944, Naval Aviators did, in fact, participate in this greatest amphibious invasion in history. If the records have been previously released, and or transferred to NARA II, that NHHHC conduct a crosswalk to verify the records are the same. |

Mr. (b)(6) spent decades as a high school teacher making claims to have been a decorated Navy Seal (or possibly UDT), Vietnam war combat veteran, purple heart recipient, and sole survivor of a dangerous mission (to name a few). He showed his medals and his wounds to his students on a regular basis. I was able to verify that there is no record of him as a Navy Seal or UDT. I'm a Marine Corps veteran and former student of his, and I'd like his records to help support the evidence I've already gathered in exposing this case of stolen valor. | DON-NAVY-2017-007727 | (b) (6) | | 06/20/2017 | Assignment Determination | I would like to request via FOIA, the housing contract between "Patrician Management LLC/New Orleans Navy Housing" and the dept of the Navy/ dept of defense. Patrician Management LLC is based out of Baton Rouge louisiana . Patrician Management LLC (PM LLC) currently hold the housing contract for "Base housing"; aboard "NASJRB," located in Belle Chasse louisiana. My Family has lived in base housing for two years, and have asked for help with housing issues from the base CO (We did follow chain of command first). After months of dealing with the base , we have been told "the base cannot help us because the house isn't owned by the navy," I have been called a "racist" by our housing manager after complaining about the poor and unsafe maintenance done by PM LLC. I was RECORDED by maintenance and another contractor in my home with two small children. I cannot call in work orders, and the last time I had to go into the management office, I was forced to conduct business on the PORCH of the building, with my two small children. I cannot even go into the building anymore! Recently I found the contractors housing has used at my home for mold remediation, plumbing, electrical and general carpentry, are not licensed contractors, plumbers or mold remediators, nor are they licensed by the state. These are the same contractors that recorded me at home while "inspecting" a moldy wall. I am now curious what the housing contract between PM LLC and the Navy states. This is not for commercial use. Feel free to contact me at (b) (6) or (b) (6). Thank you (b) (6) |

By the authority provided by 5 U.S.C. § 552, et al., I do hereby respectfully request a list of Delivery Orders (or Task Orders) and Modifications issued ("D.O. List") under ID/IQ contract ID N00024-11-D-4229 for "Follow-on Technical Support Services in support of U.S. Ships Bought, Leased or Transferred through the FMS Program" ("FOTS Contract"). The D.O. List need not be 100 percent complete, but it should be a reasonable representation of most of the Delivery Orders issued from 2011 through 2017 under the FOTS Contract (believed to be around 300 in number). The D.O. List should be an already existing document or should be able to be easily adapted from an already existing document, such as an Excel spreadsheet or database report. | DON-NAVY-2017-007993 | Geoff Ziezulewicz | Military Times | 06/28/2017 | Closed | Pursuant to the Freedom of Information Act, I am requesting: Any and all records pertaining to any successful ransomware attacks on any and all U.S. Navy networks from Jan. 1, 2014, to present, to include any and all investigations, reports and supplementary material. For your reference, I am only seeking instances where a user sat down at their computer terminal and were greeted with a message informing them the contents of their computer would be off limits until a ransom was paid. Usually such payments are made via Bitcoin. As you know, FOIA law requires the release of all responsive records. As such, please refrain from withholding documents en masse. Instead, redact the exempt material and provide the responsive record. I request expedited processing because I am a journalist who is primarily engaged in disseminating information and my request concerns a matter of compelling need on a story of interest to the general public. This information is being sought on behalf of Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to (b) (6) As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Sightline Media Group consider this information to have significant public interest and therefore request that you waive the processing fees. If not waived, I agree to pay any reasonable copying and postage fees of not more than \$20. If the cost would be greater than this amount, please notify me prior to incurring the expense. As provided by the open records law, I will expect your response within (10) business days, as the statute requires for expedited requests, but since this is a breaking news story I'd ask for a more prompt turnaround if at all practical. |

| | | | | | I have been instructed by Ms. Elizabeth (Beth) Baker, Director of Public Affairs, Commander Navy Region Atlantic, (b) (6) , to submit a Freedom Of Information Act Request in order to request information on the individuals that were identified as being responsible for the fuel spill that occurred at Naval Air Station Oceana, Virginia, on or about May 10 and 11, 2017 when a fuel lever was in an incorrect position during a refueling operation causing 94,000 gallons to be spilled resulting in a cost of 3.8 million dollars to recover the fuel. On June 23, 2017, Rear Admiral Jack Scorby, Commander, Navy Region Mid-Atlantic, stated that a total of nine military personnel have or will face some form of disciplinary action, and that these personnel range in grade from junior enlisted sailors to senior officers. He indicated that as of June 23, 2017, disciplinary actions had been completed for seven military personnel. He also stated that potential administrative actions are also being considered for one civilian. Specifically I would like the names, GS-ratings, ranks, rates and ratings of those individuals, military and civilian, the punishment already received, and if there are individuals who have not received punishment, the scheduled dates and times of the proceedings in which punishment will be determined. |

| | | | | | My client is in need of all information regarding the navy service of my client's brother as the contents of such record(s) are of vital need to my client, her mother, her father, and ultimately her brother himself. Accordingly, pursuant to the federal Freedom of Information Act, 5 U.S.C. §552, we request access to, and copies of, the military service record of (b)(6)(DOB (b)(6)) (hometown: Sante Fe, New Mexico). The request is for the maximum information available under FOIA. Of particular interest is his service record, and the records pertaining to any and all awards, decorations, medals, honors, and/or commendations bestowed on Mr. (b)(6) during his military service, any promotions he might have received, his rank at the time he left the service, his disciplinary record, information regarding his discharge, and any information regarding his station and deployment including but not limited to: vessel(s) served on, any and all ports of call at which he may have disembarked, and a general description of his duties while serving in the Navy. If possible my client and I would like to receive the information in both CD and hard copy (paper) format. If requesting both formats unreasonably slows down the process, we are amenable to separate shipments. If this request is denied in whole or part, we ask that you justify all deletions by reference to specific exemptions of the act. We will also expect you to release all segregable portions of otherwise exempt material. While we hope to have our request granted given the routine nature of the records and the vital importance that they could have on my client and her family, we reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. If at all possible I would greatly appreciate your communicating with me by email or telephone, rather than by mail. I look forward to your determination regarding my request within twenty (20) business |

| DON-NAVY-2017-008331 | Joseph Trevithick | | 07/10/2017 | Closed | Hi, my name is Joseph Trevithick and I am making the following request as an "media" requester. I am a freelance journalist and researcher working for multiple outlets, with a proven track record of publishing (for example: http://www.thedrive.com/the-war-zone/8224/heres-what-really-happened-when-u-s-marines-brought-f-35bs-to-red-flag) or supporting publication (see: https://medium.com/defiant/wondering-what-u-s-spy-agencies-think-of-donald-trump-105cfb8bbf7df.t2dnixy3). I am looking to obtain a copy of the Command Operations Reports (COR) covering the 2012 calendar year for USS Wasp (LHD 1), USS Mitscher (DDG 57), and USS Dallas (SSN 700). If an exemption applies to the information in any of these documents, I ask that the Naval History and Heritage Command please consider exercising its discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing to accept and would prefer any release be in an electronic format if possible. Thanks in advance, Joseph Trevithick |

| DON-NAVY-2017-008444 | Reese Dunklin | The Associated Press | 07/13/2017 | Closed | Dear Marines Corp FOIA staff: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request on behalf of the Associated Press news service the following information: The Report of Investigation from the Marines CID unit assigned to MCB Camp Lejeune, N.C., in which a juvenile subject was accused of sexually assaulting one or more juveniles (18 USC 2243) on or about March 17, 2017. On March 20, Marines CID referred this case onto NCIS for further investigation and process; if this helps for the purposes of identifying responsive records, the NCIS control number is 20MAR17-CALE-0310-8BNA/C. I agree in advance that fields of information that contain personally identifying information such as name, DOB, SSN or contact information will be withheld. I would like to receive responsive records in electronic format. I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. I ask that you waive any and all applicable fees associated with this request. I also ask that you provide expedited review of this request. Delaying release of the information harms the public interest in knowing basic facts about an issue that has a matter of high public interest and has been a focus of the Department of Defense for several years: sexual assault, in this case, of servicemember dependents. As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone at (b) (6) or e-mail at (b) (6), rather than by mail, if you have questions regarding this request. Thank you for reading this far, Reese Dunklin, the Associated Press. |

| | | | | | 7/20/17 U.S. Navy, 7th Fleet Dear FOIA Officer, Pursuant to the Freedom of Information Act, I am requesting: Any and all investigations and supplementary records pertaining to the disappearance of (b) (6) aboard the USS Shiloh in 2017. As you know, FOIA law requires the release of all responsive records. As such, please refrain from withholding documents en masse. Instead, redact the exempt material and provide the responsive record. I request expedited processing because I am a journalist who is primarily engaged in disseminating information and my request concerns a matter of compelling need on a story of interest to the general public. This information is being sought on behalf of Navy Times for dissemination to the general public. My preference is to receive corresponding records in an electronic format via email to (b) (6). As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Sightline Media Group consider this information to have significant public interest and therefore request that you waive the processing fees. If not waived, I agree to pay any reasonable copying and postage fees of not more than \$20. If the cost would be greater than this amount, please notify me prior to incurring the expense. As provided by the open records law, I will expect your response within (10) business days, as the statute requires for expedited requests, but since this is a breaking news story I'd ask for a more prompt turnaround if at all practical. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material, as required. Please contact me at (b) (6) or (b) (6) if I can clarify or expedite this request. Thanks in advance. Geoff |

I hereby request the following records: A copy of all documents released under the FOIA request number 2012F071371 related to toxic chemicals and hazardous materials used during the battle of Okinawa. I am making this request as a representative of the media, Okinawa Times. I refer to my media accreditation in support that my request receive expedited processing and fee waiver. I believe my request meets the above requirements for the waiver of fees. I am a member of the news media - correspondent for the daily newspaper, Okinawa Times, editor at Asia-Pacific Journal and contributor for The Japan Times. The information I am seeking will clearly aid to public understanding in the U.S. and Japan of the environmental impact of military installations on Okinawa. Previous articles which I have written related to this issue have been the focus of intense public debate. The documents we are now requesting will form the basis of a series of newspaper articles and they will be shared with public officials, policy-makers and, if deemed appropriate, made available online. My previous research has been featured in reports by the U.S. Congressional Research Service and the Japanese national parliament. I believe this supports my assertion that I am able to disseminate this information widely. There is "urgency to inform the public concerning actual or alleged Federal Government activity." 5 U.S.C. § 552. I believe there is widespread and exceptional media interest in which there exist possible questions about the government's integrity affecting public confidence. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. | | | | | | I am writing to express my sincerest hope that you will reconsider my debarment at Camp Lemonnier. It is very important that I continue my contract with the USO and clear my name of the alleged allegations. I can only imagine the distress and awkwardness of my absence has created for my team and the soldiers that depended on us. This has been a complete misrepresentation of my character as a person and employee. To address the allegations of that day (7/5/2017) I would like to state that (b) (6) was not a formal acquaintance nor friend of mine but merely an opportunity for me to explore the city of Djibouti being that the use of the USO vehicle is for USO events only. I had been so eager to see the city of Djibouti and taste the food of the local cuisine or the local Kepinksy in which I heard so much about since my arrival to Camp Lemonnier in January. I guess I must have talked about it too much because my friend suggested to me that Mr. (b) (6) would be going out into the city and that he would take me out with him. I immediately jumped at the opportunity, informed my supervisor that I would be going out and who I would be going out with according to our protocol, unbeknownst to me as to the why Mr. (b) (6) was going out into the city. I was completely blindsided by this event. What I viewed as a simple opportunity to explore the city of Djibouti, to see the culture, and get some food besides the food opportunities on base resulted a detrimental stain to my character and my reputation as a vital and morale contributor to the USO and my place at Camp Lemonnier. I had absolutely no involvement in the alleged terms of my debarment but was merely in the wrong place at the wrong time and thus fallen under the false perception of guilty by association. I would appreciate the opportunity to remain at Camp Lemonnier and complete the goals that have been set before me as a figure of pleasantries and morale. Please review the attached supporting evidence of my chara |

| DON-NAVY-2017-008881 | Skye Perryman | Democracy Forward Foundation | 07/27/2017 | Closed | On July 27, 2017, President Trump announced "[a]fter consultation with my generals and military experts, please be advised that the United States government will not accept or allow transgender individuals to serve in any capacity in the U.S. military." Following this announcement, the Pentagon sent out a statement announcing that it would be providing guidance "in the near future" to the military. Pentagon Spokesman Captain Jeff Davis specifically referred to the policy as "new guidance." Previously on June 30, 2017, Secretary of Defense Mattis delayed by six months a deadline to complete a study on allowing transgender individuals to enlist in the military. Transgender individuals have been allowed to serve openly and receive medical care since late 2016/ In an effort to understand, and explain to the public, this change in policy, Democracy Forward Foundation requests that the Department of the Navy produce the following within twenty (20) business days: 1. All correspondence referencing, referring to, and/or involving in any respect the the July 26, 2017 announcement on transgender individuals in the military by President Trump. 2. All records, correspondence, and studies provided to the White House concerning in any respect the ability of transgender individuals to serve and enlist in the military. 3. All records on the development of instructions to the military services following the "new guidance" from President Trump. 4. All records and correspondence regarding the ongoing studies by any branch of the Military regarding the enlistment of transgender individuals in the Military. The time period for this request is January 20, 2017 to the date the search is conducted. Given the potential volume of records, a rolling release is requested, with a prioritization for the first subject of records (correspondence involving the July 26, 2017 announcement). Please see attached letter for entire request. |

| DON-NAVY-2017-008938 | Zachary J. Jacobson | Dr. | 07/28/2017 | Closed | I am a Cold War historian. I was wondering if you might know where I could locate the records for the orders to distribute literature to US military personnel by high officials (in this case Pres. John F. Kennedy, "The Guns of August" by Barbara Tuchman, 1962/63.) During the Cuban Missile Crisis, Kennedy was enamored with Tuchman's history of the first month of World War I as a clue for how to confront the Soviets in Cuba. In most any thorough biography of JFK, historians recall how the president insisted time and again that his aides and the officers around him read the book. He went further: he wanted to "send a copy of that book to every Navy officer on every ship right now." He told the Secretary of the Army, Cyrus Vance, to ship Tuchman's best-seller to "every U.S. military base in the world." These stories are repeated time and again, but there is no evidence yet, one way or other, if they were ever carried out, if soldiers and marines, pilots and sailors, as they readied for Cuba (and Vietnam) read of the misery and heroism of World War I amidst their own travails. Could you point me in the direction of how I might figure this out? Sincerely, Zachary Jonathan Jacobson, PhD |

Once you have identified responsive records, my colleagues and I would be happy to engage in a conversation about the extent and nature of those records in a good faith effort to limit the scope of the inquiry, and therefore the amount of work your office must do in reviewing the documents prior to release. In that spirit, and in an effort to limit the request and therefore the time it takes to complete, I am not seeking at this time any exhibits such as witness statements or other attachments that might require a significant review. | | | | | | To whom it may concern at NCIS Re: Associated Press FOIA Request Submitted via email: ncis_foia@ncis.navy.mil Pursuant to the federal Freedom of Information Act, 5 U.S.C. §552, I request the following information: Closed Reports of Investigation (ROIs) in which <input type="checkbox"/> Both the alleged offender and victim are under age 18; <input type="checkbox"/> The allegation involves a sex crime, such as but not limited to acts colloquially referred to as rape, aggravated sexual assault, sexual assault, forcible sodomy, aggravated sexual contact, abusive sexual contact, wrongful sexual contact, indecent assault, attempts to commit the offenses and any other offense categories encompassing sexual abuse -- but not verbal sexual harassment; <input type="checkbox"/> The date is Jan. 1, 2007 through the present; <input type="checkbox"/> The incident occurred on U.S. Naval and Marines military bases and facilities in Japan. Once you have identified responsive records, my colleagues and I would be happy to engage in a conversation about the extent and nature of those records in a good faith effort to limit the scope of the inquiry, and therefore the amount of work your office must do in reviewing the documents prior to release. In that spirit, and in an effort to limit the request and therefore the time it takes to complete, I am not seeking at this time any exhibits such as witness statements or other attachments that might require a significant review. Further, I agree in advance that fields of information that contain personally identifying information such as name, DOB, SSN or contact information will be withheld. However, I request all other fields of information, including but not limited to the incident's date, type of location (private residence, school, playground), the installation where the incident occurred, the age of victim and accused, their gender, race, any prior relationship, date of arrest if one made, type of charges if filed and incident synopsis or summary. |

| | | | | | Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. §552 et seq. and the implementing regulations of the Department of Defense (DOD), 32 C.F.R. Part 286, American Oversight makes the following request for records. On Wednesday, July 26, 2017, President Trump announced over the course of three tweets that transgender persons are no longer permitted to serve "in any capacity" in the U.S. military. Reports promptly emerged that the decision was politically motivated. First, DOD officials said they were unaware of the president's announcement until they saw his tweets, further evidenced by DOD's transgender non-discrimination policy still being on the agency's website. Second, and more directly, administration sources indicated that the announcement was politically motivated to target Democratic politicians in the Rust Belt. American Oversight submits this FOIA request to shed light on whether and to what extent DOD officials were involved in this change in DOD personnel policy. |

| DON-NAVY-2017-008987 | (b) (6) | | 07/31/2017 | Closed | My name is (b) (6). I need an arrest record from 9/29/2002. We are in the process of an international adoption, and when we ran our fingerprints for the FBI Clearance my report came back showing an arrest from the year 2002. I was in the Marine Corps and stationed at MCAS Miramar at the time, a LCpl at the time of the arrest. Our home study agency (that the FBI Clearance report was submitted to), said that the record showed I was arrested for drunk and disorderly conduct, and destruction of government property. Here is a description of the event, if it helps you locate my record: On 9/29/2002, a bunch of us Marines were hanging out at the barracks after work, and the fire alarm went off. The protocol was that if the fire alarm goes off you go down to the parking lot and form up, so that's what everyone did (about 15 people that lived in that building). The military police showed up and took everyone down to the station and held us all there for about four or five hours. Finally, one Marine admitted that he had kicked the fire alarm, and later on he was demoted for drunk and disorderly conduct and destruction of government property. If I remember correctly, he was a Sergeant at the time. His name was (b) (6). Clearly, there was no actual "arrest" and I had no idea that I was given a record at the same time, and only learned of it a couple weeks ago after our FBI Clearance report came back for the adoption. Our adoption agency needs a copy of this record to disclose to immigration, since they are under obligation to offer all information regarding adoptive parents. If we don't have the record, immigration may think that we are trying to hide something and decide that we can never adopt internationally. |

As provided by the open records law, I will expect your response within (10) business days, as the statute requires for expedited requests, but since this is a breaking news story I'd ask for a more prompt turnaround if at all practical. | DON-NAVY-2017-009079 | Robert H. Downie | | 08/02/2017 | Assignment Determination | On 1 December 1971, the submarine USS Bowfin (SS-287), then a reserve trainer in Seattle, Washington, was stricken from the Navy list. Plans were to scrap the submarine, but the City of Seattle requested Bowfin for a planned marine museum. Bowfin was towed to Bremerton on 23 December 1971 to await a decision on her fate. In early 1972, ADM Bernard A. Clarey and RADM Paul L. Lacey approached the Secretary of the Navy about acquiring Bowfin as a memorial to the U.S. Submarine Force at Pearl Harbor. With the assistance of Hawaii's Senator Daniel Inouye, this acquisition was approved. I wish to know: (1) The date (day/month/year) the acquisition of Bowfin as a memorial was approved. (2) By whom the acquisition was approved. (3) What arrangements were made to tow Bowfin to Pearl Harbor. (4) When this tow occurred, and from where it originated, if other than Bremerton. Copies of supporting correspondence would be appreciated. Thank you, Robert H. Downie |

I request expedited processing because I am a journalist who is primarily engaged in disseminating information and my request concerns a matter of compelling need on a story of interest to the general public. | | | | | | Dear U.S. Department of the Navy: I request copies of records under the Freedom of Information Act (5 U.S.C. 552) containing data that refers to and/or describes the dispersal of materials in the atmosphere visible over Monterey County, California on August 3, 2017, including but not limited to, the composition(s) of the materials dispersed and the quantities of each material dispersed. On information and observation, I have probable cause to suspect that the materials dispersed include at least Welsbach and Welsbach-like materials (such as the oxides of metals), coal ash, and materials characterized by frequency-dependent emissivity. In my considered opinion, a search of your electronic files using the names of these materials as search terms will likely result in records responsive to my request. On further information and observation, I have probable cause to suspect that at least some of the materials dispersed in the atmosphere are dispersed from aircraft flying to and from Fort Hunter Liggett in southern Monterey County. The attached photo was taken this morning at 7:38 a.m. PDT. In order to help you determine my status for the purpose of assessing fees, you should know that I am an individual acting on my own behalf and on behalf of Spirit and Life on Earth and I have no intention of using the information commercially. I request a waiver of fees for this request because disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to the public understanding of the operations or activities of U.S. Department of the Navy and is not primarily in my commercial interest. I have included a telephone number at which I can be reached if necessary to discuss any aspect of my request. Sincerely, /Douglas Mackenzie/ Douglas Mackenzie(b)(6)(b)(6)(b)(6) |

| DON-NAVY-2017-009148 | Torin Merrill | | 08/03/2017 | Initial Evaluation | The Major Caliber Lightweight Gun (MCLWG) program was the "55 caliber Mark 71 major caliber lightweight, single-barrel naval gun prototype. I am seeking information regarding the design differences between the non-lightweight versions, and more importantly, the reasons for program cancellation. The 8/55 was a successful design that was in service for 50 years. It is very unusual that a known successful design was labeled as "Inaccurate and unsuitable" by Naval Surface Warfare Center Dahlgren Division (NSWC) and Operational Test and Evaluation Force (OTEF). The reason for cancellation was cited that the existing 5/54 gun system equipped with Rocket Assisted Projectiles (RAP) was equally effective. The RAP projectiles were later defunded and cancelled. Additionally, a gun system with a 50 year track history being labeled as "Inaccurate and Unsuitable" appears unexpected, and I believe that the fact that the system was tested on a small ship with only a 45 foot beam (USS Hull) contributed significantly to those findings, and the selection of a narrow vessel was an inappropriate test platform. With the heavily flawed 155mm Advanced Gun System on the DDG-1000 class vessels, suitable replacements should be sought, and the long track record of the 8/55 should be considered. I am seeking information regarding the design differences between the non-lightweight versions, and more importantly, the report recommending for program cancellation. |

| DON-NAVY-2017-009319 | (b) (6) | Self | 08/08/2017 | Closed | My name is (b) (6), (former Navy STG2). I am seeking all records associated with 1) the attempt on my life by STGSN (b) (6) onboard USS Knox FF1052 in October 1984 and 2) all records pertaining to NIS agent (b) (6) and his assignment aboard USS Knox FF1052 in October of 1984. I got out of the service shortly after the assault by asking my chief STGC (b) (6) for an early out. I was the target of an attempted murder by one of my own men (STGSN (b) (6)) onboard USS Knox FF1052 in the early fall (Sept - October) 1984 in Yokosuka, Japan. Seaman (b) (6) had been brought up on charges for smuggling marijuana. He hid these drugs in one of my work lockers. MAA force fingerprinted the bag and only Seaman (b) (6) finger prints were on the bag. The following day at Quarters, in front of AS Division Officer Ensign (b) (6) and the entire AS division, threatened to kill me "if I ever did something like that again." The following day he attempted to kill me by throwing a 10lbs bolt from the top of the Mack, missing me by inches, while I walked topside security watch. The second incident I am seeking records for is the assignment of NIS agent (b) (6), aka STG2 (b) (6) onboard USS Knox FF1052 in Yokosuka, Japan in October of 1984. As STG2 (b) (6), he reported aboard, just as I was entering the quarterdeck. I recognized him from FLEASWTRCENPAC in San Diego. He immediately told the POOW that I was working for NIS. Within an hour, I was persona non grata. The crew would not speak to me, except one guy, STG3 (b) (6), the CO and the XO. He they beat him for talking to me. I got the usual blanket party stomp downs for weeks. The trauma that event caused was not documented. While labeled a narc, nobody acknowledged my existence except the CO (Cdr (b) (6)) and the XO. Who would document any accusation by a "narc"? I know the job that (b) (6) did was his duty, as was mine to be the patsy. I hold no grudge |

| | | | | | I suspect that my request for information concerning myself is unjustly exempted and excluded from FOIA Laws in nearly every category, including but not limited to: "The first exclusion protects the existence of an ongoing criminal law enforcement investigation when the subject of the investigation is unaware that it is pending and disclosure could reasonably be expected to interfere with enforcement proceedings. The second exclusion is limited to criminal law enforcement agencies and protects the existence of informant records when the informant's status has not been officially confirmed. The third exclusion is limited to the Federal Bureau of Investigation and protects the existence of foreign intelligence or counterintelligence, or international terrorism records when the existence of such records is classified." I have been a subject of criminal activity and unjust persecution by government and law enforcement agencies. I demand ALL information relevant be released immediately. Including all information pertaining to my being an informant for UCIS, all information of cyberactivity, foreign intelligence in my travels abroad, domestic surveillance and intelligence, intimidation and stalking tactics used by government agencies, and any other information gathered and associated with my identity. OVER-CLASSIFICATION does not "Exclude or Exempt" I HAVE THE RIGHTS TO ALL INFORMATION PERTAINING TO ME. IF I AM SUSPECTED TO HAVE COMMITTED A CRIME, LET IT BE KNOWN. UNLAWFUL ACTIVITY COMMITTED BY NCIS OR OTHER GOVERNMENT/LAW-ENFORCEMENT AGENCIES ARE NOT PROTECTED UNDER FOIA LAW EXEMPTIONS AND EXCLUSIONS. |

| DON-NAVY-2017-009636 | Morgan C. Seag | University of Cambridge | 08/16/2017 | Submitted | I am an American citizen pursuing a PhD degree at the University of Cambridge, United Kingdom. I am requesting an FOIA in order to access records that are crucial to my doctoral research. My research examines Antarctic history during mid- to late-20th century, focusing on the integration of women into the US Antarctic Program (USAP). The records I am requesting will help answer question such as: how did American women come to participate in Antarctic science and science support? Why were women excluded from USAP until 1969? What were the roles of the US Navy (generally understood to have opposed women's integration into USAP) and the National Science Foundation (NSF; believed to have fought for women's integration into USAP)? Military support has played an important role in American science, especially in the polar regions; my research on women in Antarctica will shed new light on the sometimes tense relations that characterized the collaboration between the Navy and NSF, as well as the story of how these tensions were overcome in order to achieve progress for women. I am therefore submitting a FOIA in the hopes of accessing the records held at Naval History and Heritage Command, titled "CNO - Oceanographer of the Navy on Operation Deep Freeze COLL451", which deal with the relationship between the US Navy and the NSF in Antarctica. The most important folders for my research are titled as follows on the NHHHC finding aid: Box 2, #11 (Navy and NSF, 1974-1991); Box 2, #12 (Navy Interests in Antarctica, 1974-1975); Box 4, #41 (Navy and NSF-Folder 1, 1974-1984); Box 5, #42 (Navy and NSF-Folder 2, 1985-1989); Box 5, #44 (Transfer of Navy Antarctic Authority, 1974-1992). Thank you in advance for your assistance. |

Ms. (b) (6) was employed as an NCIS Agent prior to her death on March 10, 2016 from breast cancer that metastasized to her brain. She was on assignment at the time of her death. I represented Ms. (b) (6) with respect to a Military Claims Act claim prior to her death. The claim alleged that Ms. (b) (6) treating medical providers at U.S. Naval Hospital, Yokosuka, Japan, failed to timely diagnose and treat her breast cancer. I now represent her Estate with respect to that claim. I recently requested that NCIS provide me with information regarding Ms. (b) (6) income to facilitate my negotiation of a settlement with the Department of the Air Force, which has single-service claims responsibility for the adjudication of MCA claims arising in Japan. More specifically, I requested the following information: (1) Ms. (b) (6) length of federal service, including her length of service as a NCIS Agent; (2) Ms. (b) (6) annual gross salary at the time of her death in March 2016; and (3) whether there is a mandatory retirement age for NCIS agents. The NCIS Human Resources Directorate refused to provide this information absent formal discovery or a FOIA request. Formal discovery is not an option since there is no right to sue under the Military Claims Act and, therefore, there is no mechanism for conducting discovery. Accordingly, I am submitting this FOIA request to obtain the requested information. Attached is a copy of Ms. (b) (6) certificate of death, documents reflecting the appointment of her sister, (b) (6), as administrator of (b) (6) Estate, and a copy of my retainer agreement with (b)(6). | DON-NAVY-2017-009974 | Mark Olinger | | 08/24/2017 | Closed | The Great Green Fleet (GGF) was a year-long, Department of the Navy (DON) initiative that demonstrated the sea service's efforts to transform its energy use. As one of the Secretary of the Navy's key energy goals, its was to make America's sailors and marines better warfighters, able to go farther, stay longer and deliver more firepower. The centerpiece of the GGF was the John C. Stennis Strike Group (CSG) that was deployed on alternative fuels, including nuclear power for the carrier and a blend of advanced biofuel made from beef fat and traditional petroleum for its escort ships. These biofuels had been procured by DON at prices that are on par with conventional fuels, as required by law, and are certified as "drop-in" replacements that require no engine modifications or changes to operational procedures. The strike group is comprised of John C. Stennis with Carrier Air Wing (CVW) 9 and Destroyer Squadron (DESRON) 21 embarked, guided-missile destroyers Chung-Hoon, Stockdale, William P. Lawrence and guided-missile cruiser Mobile Bay. CVW-9 consists of Helicopter Maritime Strike Squadron (HSM) 71; Helicopter Sea Combat Squadron (HSC) 14; Airborne Early Warning Squadron (VAW) 112; Electronic Attack Squadron (VAQ) 133; Fleet Logistics Combat Support Squadron (VRC) 30; Detachment 4 and Strike Fighter Squadrons (VFA) 151, 97, 41 and 14. Throughout 2016, other DON platforms including ships, aircraft, amphibious and expeditionary forces, as well as shore installations, participated in the GGF by using energy efficient systems, operational procedures, and/or alternative fuel during the course of planned mission functions worldwide. Request that both the procurement costs for the various biofuels procured by type and the annual fuel costs by organization in the strike group be provided, that includes the specific type of drop in fuel and the cost per gallon. |
| DON-NAVY-2017-009975 | Mark Olinger | | 08/24/2017 | Assignment Determination | Sailing the Great Green Fleet (GGF) in 2016 was one of the five energy goals former Secretary of the Navy (SECNAV) Ray Mabus set in 2009 for the Navy and Marine Corps. Request that the prepared testimony and speeches of the former SECNAV concerning the GGF. Additionally, ask that press releases concerning the GGF be provided. |
| DON-NAVY-2017-009977 | Robert J. O'Dowd | Salem-News.com | 08/24/2017 | Assignment Determination | This is a Freedom of Information Act (FOIA) request for PDF copies of soil sample laboratory reports detecting Dioxin 2,3,7,8 TCDD for six sites at former Marine Corps Air Station El Toro, CA. I am a representative of the news media affiliated with www.Salem-News.com (Salem, Oregon) and this request is made as part of a news gathering effort and not for commercial use. Patricia Hannon, PG, Engineering Geologist, Land Disposal and DoD Section, California Regional Water Quality Control Board, Santa Ana Region provided information that supported Dioxin 2,3,7,8 TCDD was detected at the following El Toro sites OU-2B - IRP-17 COMMUNICATIONS STATION LANDFILL OU-2C - IRP-3 ORIGINAL LANDFILL OU-2C - IRP-5 PERIMETER ROAD LANDFILL OU-3 - IRP-12 SLUDGE DRYING BEDS OU-3 - IRP-9 CRASH CREW PIT NO. OU-2C - ANOMALY AREA 3 LANDFILL Inhalation would be the route of exposure for those downwind of the landfills where burning was employed to decrease volume and the crash crew pits where crash crews and fireman conducted training. At El Toro, there were four main drainage channels that flowed through or adjacent to the base. Three of these drainages were continuations of natural washes that originated in the Santa Ana Mountains. Surface drainage from the hills and upgradient irrigated farmland combined with runoff generated from extensive paved surfaces on the station. The on-station storm sewer system discharged into the drainage channels, which then flowed into San Diego Creek. San Diego Creek discharged into Upper Newport Bay, about 7 miles downstream from its intersection with Marshburn Channel. The channels were mostly lined and culverted through the base. The risk of dioxin exposure to those on the base from run-off should not have been a factor. However, dioxin in the dry sludge beds supports contamination in the wastewater, probably from base wells. |

| DON-NAVY-2017-010207 | Bill Streifer | | 08/30/2017 | Assignment Determination | The skipper of the USS Pueblo on January 23, 1968 was Lloyd "Pete" M. Bucher. At the rear of Bucher's book, "Bucher: My Story," is a 2-page track chart of the USS Pueblo. The map is labeled "East Coast of Korea with Adjacent Coasts if Siberia and Honshu." According to the map, it was created from Japanese surveys to 1931 and Russian surveys to 1925. Soundings in fathoms, heights in feet. It appears to be a Navy chart of the North Korean coast. It appears that someone later added: "Wonsan," "Op. Area Mars," "Op. Area Venus," "Op. Area Venus," and "Track of U.S.S. Pueblo." Who drew the track chart and when does not appear on this map. I am requesting a high-resolution scan of this track chart and/or the map it was created from. I am also request all documentation and/or orders that might explain who was ordered to draw the Pueblo's track chart, who issued the order, and when. I have a scan of Bucher's USS Pueblo track chart but it failed to load. Can I send it to you via e-mail later? If so, my e-mail is (b) (6). |

| DON-NAVY-2017-010314 | Colin May | Stevenson University | 09/06/2017 | Submitted | To Whom it May Concern: Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of the materials, material related to the active duty service of U.S. Navy Chaplain Lt. Fr. Vincent R. Capodanno, Jr., a posthumous recipient of the Congressional Medal of Honor. Specifically, I wish to obtain copies of any investigations or reports underlying the CMOH award, any photographs of Fr. Capodanno in ministry, and any other archived materials which reflect on his service and sacrifice. I wish to conduct research on this amazing Catholic priest and his life and legacy, in support of the cause for Canonization by the Catholic Church. Because Fr. Capodanno's legacy is important to the Church and to the Navy, and well as his receiving the nation's highest military award for bravery, I believe this falls into the category of important public information. To save time and copy expense, I would like to receive the information in electronic format (CD-Rom or DVD), which I am happy to provide. Please waive any applicable fees. As you are aware, the fee charged to duplicate records cannot exceed the actual cost to the governmental entity. Because of the de minimis cost to produce the records in electronic form (not paper form), I would respectfully request this minimal cost be waived. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. Thank you for your time! |
