08-F-0010	Magee, Kyle	-	9/28/2007	10/3/2007	Requesting FOIA information regarding ROTC programs within the state of Missouri. I would like to request information about logistics into Missouri's ROTC programs at colleges within the state, i.e. numbers of ROTC students signed up within the state of Missouri. I would also like information regarding the number of ROTC troops from Missouri scheduled to be deployed or already deployed to service in Iraq. Logistics would include demography, age, location within Missouri, time until deployment, and cost of deployment. I would then like to find out information regarding these same logistics for the national scale, i.e. how many ROTC troops have been deployed from the entire country. If this could be at all possible, please direct me to the appropriate division of the department to establish contact with. I appreciate your help in this regard.

08-F-0111	Jackson, John	-	10/18/2007	10/26/2007	Is the information in this article that I copied a portion of accurate? Because a VA doctor indicated that [] a,Korean War Vet, appeared to be suffering from a lateral sclerosis and now [] appears to be developing similar symptoms. In 1946, future pharmaceutical czar George Merck reported to the US Secretary of War, that he'd managed to weaponise the toxin extracted from the Brucella bacterium and to isolate it into an indestructible crystalline form using only the DNA particles. Aerial spraying of the crystals via chemtrails was deployed on Chinese and Korean populations during the Korean War. Many veterans of the war later developed Multiple Sclerosis. The army recognized that the MS was Brucella-related and paid the veterans compensation. Although the Brucella micoplasma can lay dormant for decades, it can be triggered by vaccines. Vaccines have been mandatory in the US military since 1911.

08-F-0113	Chalmers, Lois	Institute for Energy and Environmental Research	10/19/2007	10/23/2007	We would like to know how much radioactive fallout was found by the United States government, following French atmospheric nuclear tests which took place in Algeria between February 13, 1960, and April 25, 1961. We do not know which office might have collected or retained these records. To this end, we would like to obtain the radioactive fallout records or any other pertinent records or publications created by United States government personnel (presumably from the Department of Defense) after the French tests. We have not found this information in the open literature. French pilots in Libya witnessed Americans making measurements of radioactivity in the fallout. We are particularly interested in any measurements made in countries that are neighbors of Algeria, particularly Libya. We would be interested in records made in the air and on the ground. We would be happy to discuss this request to limit its scope. We need more information about the extent and form of the records before we can do that.

08-F-0165	Jordan, Jim	Congress of the United States House of Representat	10/25/2007	10/30/2007	I am writing to make a special request for a listing of all active military personnel and reservists who list the Fourth Congressional District of Ohio as their home of residence (regardless of their station of duty). I am also interested in obtaining active enlisted personnel and civilian employees who live in our District. While I realize there are regulations guarding the locations of our service personnel it is critically important for me to find a way to communicate with them directly and anything you could do to facilitate this would be appreciated. For our programmers to convert this information to our system, we would need either 1600, or 6250 BPI magnetic tape coded in EBCDIC or ASCII characters in standard IBM format - labeled or unlabeled tapes if provided on tape. If provided on diskette or CD, a standard database format such as ASCII delimited, excel or any other database program readable in Microsoft's excel software would be fine. In addition, we would need a complete file layout and an index of the meaning of file codes to assist in conversion.

08-F-0321	Holley, Ronald	USAF (Retired)	11/26/2007	11/27/2007	During my 27 year military career with the U.S. Air Force - I was assigned to the American Embassy, Dublin, Ireland between 1973 - 1979. As a member of the Air Force Veterinary Services - our group was responsible for the inspection of carcass beef and other products of animal origin throughout the Republic of Ireland - for shipment to the U.S. Forces within Europe. At the American Embassy in 1976 - our office was questioned/interviewed by several military officers and GS-12 civilian personnel from the Defense Logistic Agency (DLA). This event took place based on a documented problem "within the U.S." (see below) - involving Army food inspectors who were found to be taking bribes offered by military contracted meat packers. Some time after our interviews (recorded on audio tape) with DLA personnel - we were told that the report coming out of Ireland made its way to a Congressional Committee - the investigation and report was supposedly titled "Seven Seas." A similar investigation was supposedly conducted within the United Kingdom - involving military meat inspectors stationed there. Request
