We also have another 84,000 military-to-military marriages -- 84,000 -- with 80 percent of them stationed within 100 miles of each other. ... And we know that, at 10 years of service, when women are at their peak years for starting a family, women are retained at a rate 30 percent lower than men across the services. 16-F-0525	Cardillo, Richard	Higher Ground Sun Valley	PAL	2/2/2016	2/4/2016	My organization and I are planning to participate in the 2016 Carry the Load event on Memorial Day. As an organization we are trying to educate and inform people on the true meaning of Memorial Day. As part of that educational process I plan to walk 30 miles (one mile for each year that I served on active duty). Additionally, I would like to 'carry' the names of all service members that died between 15 December 1978 and 31 December 2008. I found the numbers from FY 1980 through 2008 but I couldn't locate the numbers for the time period prior to 1980 nor could I find the names of those same individuals. Is that information available? If so, where might I find it. I've already tried to obtain this information from the DCAS and they said they had the information but I had to go through you to obtain it. Once I submitted my request to you they indicated they would work with FOIA to provide the information I am in search of. Any assistance is greatly appreciated. Thank you. 16-F-0548	Corey, Craig	-	PAL	2/5/2016	-	On 20 Jul 2015, the J7 Military Secretariat for Suffolk announced via e-mail that Joint Staff-Hampton Roads would receive 10 excess seats from Navy Information Dominance Command for mid-level development program and senior-level development program courses. 5 MLDP slots were available for GS-9 through GS-12 personnel, and 5 SLDP slots were available for GS-13 through GS-15 personnel. The selection process instructions only stated that supervisors should forward an e-mail to MILSEC with their endorsement of candidates, and once the nominations were collected, there would be a panel composed of GS-15s and O-6s to make selections "based upon the strength of the input received." On 21 Jul, the deputy MILSEC (Suffolk) sent an e-mail to the Joint Doctrine Analysis Division chief stating that the 20 July announcement was an "informal note for right now-trying to determine what the "demand signal" will be. Then there will be a formal application and vetting process. So this initial screening will be to make sure (1) we have candidates who want to do it and (2) their supervisors support. But all the "supporting documentation" and endorsements will come later." On/about 25 Jul, the Joint Staff lost access to unclassified internet capability which was not restored until 10 Aug. During that time, no information was distributed on the classified e-mail system (or other means) to the Joint Staff J7 work force in Suffolk with instructions on submitting supporting documentation, supervisor endorsements, or any other status updates to the MLDP/SLDP selection process per the deputy MILSEC's e-mail outlined above. On 11 Aug, MILSEC announced that the selection process was complete and the selections were made. Following that announcement, I twice requested from the MILSEC the following information: • The list of the personnel who were submitted to the board. • What candidate submissions the board used to base their decisions upon. • What the board used to assess candidates. • What the instructions to the board were. None of these questions were answered by the MILSEC. There are a number of development programs that are occasionally available to Joint Staff J7 civilian personnel; e.g., Executive Leadership Development Program, Key Executive Leadership Certificate Program, SLDP, MLDP, etc. Seldom, if ever, is there

16-F-0715	Butler, Christopher	California State Board of Equalization	PAL	3/14/2016	-	Hello. I would like to know the total number of military discharges, across all branches of service, between 2003 and 2016, broken down by character of discharge. For example, you might be able to tell me there were 10,000,000 Honorable Discharges, 800,000 General Discharges, 250,000 Other Than Honorable, etc. I do not need the statistics broken down by branch of service necessarily, rather I just need grand totals for each type. In the interest of time, if it's faster to only include say 5 years of data, that would be great as well. Why do I need this information? There is a bill in the California legislature, Assembly Bill 2314, seeking to expand eligibility among our state's veterans as it relates to the homeowners' property tax exemption. Currently, only those receiving an Honorable Discharge are eligible. The legislation seeks to expand the category to include General Discharge and Discharge Under Other Than Honorable Conditions. 16-F-0731	Marsh, Matthew	-	PAL	3/21/2016	3/29/2016	On March 19, 1982 a KC-135A aircraft (ending in tail number 031) which was a part of the 126th Air Refueling Wing based at Chicago O'Hare Airport, exploded mid-air over Greenwood, Illinois killing all 27 personnel on board. I am writing to request specific information related to that crash. I have been doing personal research on this incident for years (I was a child in the area that it exploded back in 1982). I am specifically looking for copies of any and all records related to research, investigation and testing of the recovered VHF antenna assembly recovered from the debris of the crash. I am also interested in finding out whether the physical remains of that VHF antenna still exist in storage anywhere. If they do, I would like to know if there is anyway for a request to be made to see those items and/or possibly have them tested. I am interested in learning more about this VHF antenna assembly because there was a lot of evidence found back in 1982 that could suggest it played an important role in the cause of the midair explosion. I know from examining other records the the Air Force accident investigators did do some lab testing of that found antenna assembly, but I am looking to find out more about that testing done (and the results found). If that actual antenna assembly also still exists in storage, I would like to see if more modern scientific testing of it could possibly be performed - now 34 years later - that might rule in or out whether this VHF antenna assembly did play a role in the cause of this accident. One version of this publication was promulgated on the 21st of October, 2002 by the Assistant Secretary of Defence For Public Affairs. Specifically, Chapter C5.21. is titled "Unidentified Flying Object (UFO) And Other Aerial Phenomena Imagery" and states: "The following table concerns imagery that records UFOs and other aerial phenomena not obviously identifiable as conventional aircraft or missiles. The table also lists the priority assigned to each category of imagery and provides relevant handling instructions." The table, "Table C5.T21", is titled "UFO and Other Aerial Phenomena Imagery" and contains two categories, namely: "5-21-1. Aerial flying objects not obviously identifiable as conventional aircraft" "5-21-2. Aerial phenomena (including moving lights and similar phenomena)" For both categories, the handling instruction states: "NORMAL. Provide copies or dubs as needed to local and major commands. Handle camera-recorded imagery according to Appendix 2." I wish to be finished with copies of any images that have been taken by US military personnel that fit into these categories, namely, "Unidentified Flying Objects" or "UFOs". Grady letter dated August 16, 2016, including coordination/staff summary sheets, any documents attached to or referenced by those coordination documents and emails generated before or subsequent to that date. That letter itself is in my possession, and so is not requested. My request includes emails associated with that letter, many of which were sent or received by Smith, Leroy D CIV (US) leroy.d.smith3.civ(at)mail.mil , but further include any sent by other officials as well -- whether or not Mr Smith was included in them. Given my constituent request to US Senator Warner was the basis of the specific letter cited above, I point out that Congressional Liaison staff records and others would certainly be included. The June 2, 2016 date is the date that I initiated my contact with Senator Warner; which certainly at some point generated documents preceding August 16, 2016. I just attempted to attach the August 16, 2016 letter but your system did not allow it. Please advise whether it would be helpful to you if I subsequently submit it. 16-F-1733	Trevithick, Joseph	-	PAL	9/19/2016	-	<p>I am looking to obtain copies of the most recent weekly, monthly and yearly reported generated for the Open Source Counter-Narcotics (CN) Information Collection, Analysis and Dissemination projects in both Colombia and Pakistan as of the date of this request (9/17/2016). On Sept. 16, 2016, the US Air Force Air Combat Command's AMIC contracting office posted a sources sought notice on fbo.gov, including a draft performance work statement (PWS) outlining potential contracts for Counter Narcotics Strategic Communications Analysis and Training (See: https://www.fbo.gov/spg/USAF/AACCONS/AMICFY17CNOpenSourceRequirement/listing.html). The PWS describes the Open Source CN Information Collection, Analysis and Dissemination projects in both Colombia and Pakistan as preexisting and ongoing and that the reports generated were sent to, among other offices, the Assistant Secretary of Defense for Counter-Narcotics and Global Threats (DASD-CN/GT). Though Air Combat Command is responsible for contract management, there is no indication that this work is done in support of Air Combat Command. Since this work is authorized under DOD Counter Drug Authorities, it is assumed that DASD-CN/GT is the classification authority for these records. If DASD-CN/GT is not the classification authority, I request that the office forward any responsive records along with this request to the appropriate office.</p>
