**Subject:** Old Post Office Change

The Old Post Office (OPO) renovation has begun. Over the next two years the Trump organization will be turning the OPO into a five star boutique hotel with an expected grand opening of early 2016. Throughout the renovation there will be numerous projects that will impact Main IR. It is anticipated that there will be construction noise, dust, and additional foot and vehicle traffic near the Main Building. During exterior construction, temporary signage, fencing and a pedestrian tunnel will be in place along 12th Street, and a new driveway will be installed on 11th Street near the Credit Union entrance. All IRS personnel should be alert and aware of their surroundings while in the impacted areas. In the event of an entrance closure, Physical Security & Emergency Preparedness (PSEP) will immediately open another entrance where there will be little to no impact. Real Estate and Facilities Management (REFM) and PSEP are working closely with the Trump organization to minimize the impact to everyone. As the construction project moves forward, timely updates will be provided by PSEP.

Thanks.
