CIA Withheld Vital Intelligence From War Room

By ROBERT S. ALLEN
And PAUL SCOTT

WASHINGTON, Oct. 20.-The Central Intelligence Agency withheld vital intelligence information from the Warren Commission during its investigation of the assassination of President Kennedy.

Despite the commission's written request for all documents that might shed light on the assassination, CIA authorities failed to turn over a national intelligence estimate warning that it is a Kremlin policy to remove from public office by assassination Western officials who actively oppose "Soviet policies.

Titled "Soviet Strategic Executive Action," the suppressed CIA document went into the shocking details of how agents of KGB, the Soviet secret police, are trained to do away with Western leaders, including officials in the U.S., and to make their deaths appear due to natural causes.

One of the KGB's newly devised assassination weapons is "a pneumatically operated poison ice-"stomizer," which leaves no wound or other evidence of the cause of death.

While this has yet to be used against any high Western official, hundreds of KGB agents covertly operating outside of Russia have been supplied with this pocket-size gun, awaiting only orders from Moscow to use it.

The Murder Weapons HIGHLIGHTS of the suppressed estimate, which is locked in a security area within the tightly-guarded CIA, are as follows:

- It has been reported that the KGB endorses the idea to "force" members of Western governments to use a pistol which projects a poison gas "liquid" form. The gas is contained in a small vial, which is contained in a package, which is inserted into the barrel of a .38-caliber handgun.
- The gas is recovered by an individual or poison cart which leaves no other evidence of death.

- The recently reported technique is to insert a telephone, connected to a high-voltage wire, during the storm to "surprise" the individual.

- Another involves the use of a pistol which projects a gas in the form of a "gas cylinder" with a high-pressure valve, which leaves no other evidence of the cause of death.

- The Czechoslovakian government has also been a victim of this technique, with aicide of its officials.

Given the importance of these documents, the President of the United States is scheduled to discuss their contents with his advisers in the near future.
