   a. Father: No record.

   b. Mother: "Frau" FEREZ de Vega. The name of Subject's mother is not available. However, the Secret has been able to gather some insights into this person by careful analysis of material pertinent to her case.

   (1) See, FEREZ de Vega is apparently an old-line Communist, judging from the comments made by her sons in correspondence. They referred to her rather proudly as the "old communist" who in spite of her sentimental ties to her sons and daughters submerged her personal feelings because she knew that they were contributing to the "cause," and therefore had to

12. LANGUAGES: Spanish

13. PHYSICAL DESCRIPTION:

a. Apparent age: 45

b. Height: Approximately 6'
a. Build: Heavy, cushioned chest, sloping shoulders, quite heavy around the waist.

d. Hair: Dark brown, wavy.
e. Eyes: Light brown, heavy eyebrows.

f. Complexion: Fair

g. Shape of Face: Round face, thin lips, has an oriental look.

h. General appearance: Subject looks like a preambulatory duckling. He walks slowly and bends slightly forward as he walks. This appearance is accentuated by his sloping shoulders and long, gravy swing. The forward tilt of the neck and his tight-lipped appearance give him the impression of stiltedness.

Dress: Sloppy dresser. Several sources have commented on his absolute lack of refinement in picking clothes. He never seems to be able to match his apparel (i.e., clashing colors - red, green, brown).

i. Outstanding features: The most outstanding feature is his manner of walking, described above.

Identifying mark: Wide gap, readily noticeable, between upper front teeth on the right side.

14. PERSONALITY, CHARACTER, HABITS:

a. PERSONALITY: Subject has been characterized by different sources as well as some of his associates as a typical, uneducated, unshaved man. He is a shy individual, very suspicious by nature, a slow thinker, and not very intelligent.

b. CHARACTER: Subject is a confirmed Communist, known to his associates in the Embassy as the "bone of the Communist Party in the Embassy." He is reportedly quick to anger and doesn't hesitate to browbeat his subordinates.

A few of the more colorful adjectives used to describe Subject are (a) unshaved, (b) lazy, (c) sloppy, (d) slow, and (e) colorful.

On the other hand, it is also known that Teresa FROIZENZA Froazza, 201-291581, and Coya SOLER ZANO (widow of) Ramiro, sister-in-law of General Lazaro CARDENAS del Rio, 201-591581, consider Subject to be one of the most able officers of the Embassy.

SECRET
c. HABITS: Subject reportedly has the annoying habit of never facing the person to whom he is talking; instead he will usually stare at the ground. He reportedly carries a gun at all times. One source described him as a "pistolero type" who would not hesitate to make use of his firearm if provoked. The Station is not aware of any instance where he has pulled a gun on anyone since his arrival in Mexico. On 4 August 1962, Subject was disarmed at the Mexico City International Airport, by Mexican Federal Judicial Police. He presented vociferously but mostly surrendered his pistol.

16. CURRICULUM VITAE: Subject has been identified as a former instructor at the G-2 School in Cuba. Subject reportedly conducted firearms training and intelligence courses.

Subject reportedly received intelligence training in Prague, Czechoslovakia, sometime prior to 1963.

Subject was accredited to Mexico as a Diplomatic Attaché, Cuban Embassy in Mexico City. He took over his duties formally on 3 April 1962, replacing Rogelio RODRIGUEZ Lopez, 201-332205.

Subject was also identified on 3 July 1962 as Press Attaché of the Cuban Embassy in Mexico, and as Deputy Chief of G-2 for Mexico.

Subject has performed the following travel, outside of Mexico, during the two tours of duty which he has served in Mexico:

1. Arrived Mexico City from Havana 2 April 1962.
5. Arrived Mexico City from Havana 21 April 1963.
7. Arrived Mexico City from Havana, c. 10 April 1964, documented as an Third Secretary of Embassy, and Chief of Cuban G-2 in Mexico.

Subject resided at the Hotel Agnes, Saltillo, 067, Colonia Condesa, Mexico, D. F., Mexico, when he first arrived in Mexico.

Subject now resides at the Cuban Embassy compound.
10. INTELLIGENCE AFFILIATION: Subject is a member of Cuban intelligence, and, to be more specific, he is in all probability a member of the Direccio
General de Inteligencia (DIG), the foreign arm of CUB. It is perhaps significant that Subject gave the following address in Havana where he can be reached whilst he is in Cuba:

Instituto Cultural de Amistad con los Pueblos (ICAP)
17, Vedado, Havana, Cuba

Subject returned for what appears to be a second tour of duty in Mexico, documented now as a Third Secretary of the Embassy, and reportedly Chief of Cuban intelligence for Mexico. His address in Cuba is listed as

Calle 11, Number 504
Edificio "A" y Terraza
LaVina, Havana, Cuba
Telephone: 99-43-82

17. INTELLIGENCE ACTIVITY: It is difficult to determine the Subject's intelligence and non-intelligence activities, since he obviously utilizes his overt position as a Cuban diplomat to cover his clandestine activity. The narrative that follows describes the total extent of his "known" activity with indications of covert modes operanti where appropriate,

a. Subject was reportedly in charge of security in the Cuban Embassy in Mexico. The record reflects at least one case where Subject had one of his fellow employees under surveillance. (June 1963)

b. Subject was administering locally the "trainee program" of Latin American youths going to Cuba. The record has confirmed cases where the Mexico City Office of Propasa Latinoa, and specifically Edmundo JARDON Armenta, 201-168907, sends the prospective trainees to Subject. Subject calls them to the Embassy where applications are filled out and these in turn are sent to Havana for vetting. The reply from Havana normally takes 15 days. (1963-64)

c. The Section also has on record confirmed cases where the Guatemalan Communist, Victor Manuel GUTIERREZ, 201-638349. using the alias, Dr. ALVAREZ, in contacting Subject has participated in channeling of recruits, especially Central Americans, to VEGA; (1963-64)

d. The activities described above merge nicely with Subject's overt activity of issuing counterfeit and taking care of persons invited to visit Cuba as part of the Cuban Government's friendship program. In the case of BRUS/1, reported in detail in HABA-12563, 19 August 1969, Subject
acted rather confused since he obviously found himself in unfamiliar ground - a departure from pre procedures - when DHU/I sought to go to Cuba without an invitation.

b. In 1962, Subject was identified as one of the executive officers of the pro-Castro Mexican organization, Committee for the Defense of Cuba (Comite de Defensa Pro-Cuba).

10. CONTACTS:

a. CUBANS (non-officials):

(1) MUNOZ, David: Childhood friend of Subject. Lives at Lawena, Havana, Cuba.

(2) CUTIERREZ, Lillian: Resides at Avenue 29, Number 5403, 31 34 y 55, La Habana, Cuba. This is probably a young lady either in high school or college. She is a member of the Cuban Communist Youth, and belongs to a cell at her school.

(3) FRAGA Perez, Carlos: A Cuban Foreign Ministry employee, who proposes to VEGA that they establish a barter system between themselves. The writer will send cigars, Cuban rum, etc., and VEGA will send some spare parts for the writer's old automobile.

(4) MARTINEZ, Julio: Cuban, who, on his return from the United States, wanted to talk to VEGA about his political plans, but wondered if the Cuban Embassy was under surveillance. VEGA assured him that it was all right to visit the Embassy and that no one would stop him.

b. CUBAN OFFICIALS (non-Embassy):

(1) GARCIA Romero, Guillermo: Cuban de Aviaciones employee in Mexico City. This person keeps Subject informed on the status of travel arrangements made for people invited to visit Cuba.

(2) HERRA Robledo, Candida Clemente: 291-59767, Directora Nacional, Circulos Infantiles, Federacion de Mujeres Cubanas, whose business address in Cuba is Circulos Infantiles, Federacion de Mujeres Cubanas, "E" Number 309, Vedado, Habana, Cuba, telephone number 23-45-68. She is a very close personal friend of Subject. Does considerable amount of travel throughout Latin America spreading Castro's gospel.

(3) HARMON Arzate, Edmundo: 201-162987, Prensa Latina Office, Mexico City. This individual is part of the channel used in Mexico City to steer
"trainees" desiring to go to Cuba into contact with VEGA. The record is quite incomplete but he almost serves the role of a "spotter."

4. CARPENTIER Belmont, Alexander "Alejo": 201-344217, Director of the Cuban National Editorial; Vice President of the National Council of Culture; Vice President of the Cuban National Union of Writers and Professor of History of Culture in the School of History, University of Habana (DOI-1953). He is the Cuban representative to UNESCO. He makes it a point to get together with VEGA to discuss a "few things" whenever he is in town.

5. GARCIA Perez, Mariano: 201-334094, Cuban Consul in Merida, Yucatan. His address is listed as Calle 22, Number 203b, Merida, Yucatan. The implication is present in one conversation that GARCIA has some type of name checking facility through which VEGA runs his "trainees."

6. POSADA Torres, Jose Luis: 201-334245, Cuban Consul in Vera Cruz.

7. RAMIREZ, Angel "Tato": 201----, Cuban Courier. The record "implies" that this individual may be a courier entrusted with GOC sensitive correspondence.

8. ROJAS Mendoza, Jorge: 201-337059, Chief of Cubana de Aviacion in Mexico. This is the person with whom Subject deals directly in arranging passage (free) for persons going to Cuba as "guests."

9. ALFONSO, Carlos Luis: 201----, Cubana de Aviacion employee or official in Havana, Cuba.

10. MAZOLA Collazo, Giraldo (201----), Director of Cuban Institute for People's Friendship (ICAP). Subject deals directly with this individual regarding the travel of "trainees" to Cuba, or official guests of state. MAZOLA has a private line which VEGA uses to communicate with him, and it does not go through the ICAP telephone switchboard. The number of this telephone is 32-35-21. In the absence of MAZOLA, Subject deals with one Humberto HERNANDEZ, who seems to be the chief of ICAP's Traffic Section. This section apparently regulates and controls travel of foreigners invited to visit Cuba.

11. GONZALEZ, Wilfredo: 201----, former Cuban Vice Consul in Tampico, Now assigned to Consulate, Mexico City.

c. MEXICANS:

1. SAAENZ Cepera Pedro: 201----, Mexican, a student leader and known agitator at the UNAM law school. He has been a Cuban Embassy
Contact, if not an agent, since 1960. Subject was 24 years old in 1960.

(3) VEPEDO, Alfonso (201- ), a contact of the Cuban Embassy since 1962. He is also active in MLN activities. It was through this contact that VEGA and other Cuban Embassy officials were attempting to find out what Mexican regulations applied in order to get a permit to operate an SW radio in Mexico. The stated reason was to contact Cuban fishing vessels operating off the coast of Yucatan.

(3) CARRILLO, Dr.): Identifies himself as President of the Grupos Amigos de Cuba in San Luis Potosi. This person is probably identical with Dr. Jorge O. CARRILLO, who resides at Madero Number 376, San Luis Potosi, SLP, Mexico. He is on the Cuban Embassy mailing list as of December 1962. It is believed that he is the same person who in 1944 lived at Bolivar Number 7, Apartment 10, Mexico City. At that time, he was a member of the Association of Friends of the USSR, according to an Association membership list taken from the Communist Party of Mexico headquarters in 1944. In May 1944, this person was reportedly head of an MLN committee in Mexico.

(4) ESCAMILLA Acosta, Mercedes: Long-time participant in pro-Castro activities. She had at one time a position in the Mexican magazine "IMPACTO." For some reason, possibly an open-reeleigh arrangement, she identifies herself to Subject, when requesting a contact, as "Doctora." She may be identical with the female who frequently calls and says that she is "the doctor but that to Subject she is not the doctor."

(5) VERDUGO, Amado (201- ), Member of Relations Section of the Movimiento de Liberacion Nacional (MLN) and reportedly a PCP member. Subject is a very important contact of VEGA. VERDUGO arranges Mexican delegations to Cuba, is continually asking if his "things" have arrived from Cuba, and asks for meetings to discuss things. Contacts cover the period early 1962 to the present.

(6) GUTIERREZ Lopes, Alfonso (Ing.): 201-351-942, Chief of the Cuban Petroleos Institute in Habana, Cuba, and a member of the Mexican Marxist party, Partido Popular Socialista.

(7) D'ANTON, Francisco (201- ), probably identical with Francisco DANTON Guerrero, Secretary General of the Student Council of Preparatory School Number 6, Mexico, D. F.

(8) FORTZ Pulido, Fnu: An employee of Zamia Martinez y Compania, S. C., Agencia Adminal, Fasao de de la Reforma, 444, Second Floor, telephone numbers: 11-39-38; 11-39-60; 11-69-93. This firm was doing business with the Polish Embassy in 1959.
(9) CASA LECHUGA: Believed to be identical with company owned by Rafael LECHUGA Ruiz, located at Cordoba 73, Mexico D. F., This is a used car dealer firm; VEGA has recently purchased 16,000 pesos worth of spare parts from this firm. The owner of the firm has an interesting background. Rafael LECHUGA Ruiz, D.F., 24 November 1944, Mexico City, was suspected of being a Nazi agent in Guadalajara, Jalisco, in 1949. He was pro-Nazi in sympathy. On 13 May 1945, the District Judge of Guadalajara issued an order for his arrest for the embezzlement of 7,000 pesos received in payment for cigarettes which he failed to deliver. LECHUGA reportedly paid a 4,000 peso bribe on 16 May 1945, and thus avoided detention. In 1948, he was engaged in smuggling automobiles out of the United States in violation of the Export Control Act. Customs agents in Laredo seized a 1942 Cadillac which he had endeavored to bring into Mexico without a permit. LECHUGA did succeed in smuggling a 1946 Chrysler into Mexico without a permit.

The delivery boy from Casa Lechuga is a Negro. He could possibly be the Fnu RICHARDO with whom VEGA deals very frequently.

(10) MORA CEPEDA, Dolores de la, (201- ), Mexican newspaper woman from Guadalajara. This is a strange case indeed. Subject and Rogelio RODRIGUEZ LUNA make arrangements to meet her clandestinely and other members of the Cuban diplomatic mission meet her overtly. As a matter of fact, she is frequently seen visiting the Cuban Embassy. She is a crass opportunist and notorious name-dropper, but VEGA seems to handle her very proficiently.

(11) COLORZANO (widow of) RAMIREZ, Covy, (201- ). This individual is the sister-in-law of General Lazaro CARDENAS del RIO. She is accorded VIP treatment by VEGA, and they appear to be very close friends. On one occasion, VEGA literally chewed out another Embassy staff for having failed to deliver a message from Covy to him. VEGA frequently accompanies her automobile when she visits the Embassy. She is a crony of Teresa FRONZIERA Ponceau.

(12) VARGAS, Manuel (Professor), (201- ). No identifiable station traces. He appears to be a regular contact of Subject. He recently apologized for having neglected to contact Subject in more than a month, and at the same time he indicated that he was urgent that he see Subject immediately.

(13) LLATA de la LLATA, Manuel de la (Dr.), (201- ). He resides at Mariano Escobedo 724, Apartment 703, Mexico City, telephone 25-80-21. He is a thoracic surgeon and it is believed that he was one of the doctors recruited by the Cuban Embassy to go to Cuba. He is an official of the...
Mexican Society of Friendship with People's China (EMACF) and a member of Mexico's official Marxist Party, Popular Socialist Party (PSP).

(14) HERNÁNDEZ, Horacio (Dr.) (201-153344)

(15) SÁNCHEZ, Ernesto (201-). Co-manager of Agencia General de Cargo Aéreo, S. A. This company is a cargo agent for Cubana de Aviación.
4. LATIN AMERICANS (other than Cuban or Mexican):

(2) SERRANO, Sus (Central or South American accent.) Appears to be one of VERA's agents. Telephone contact limited to verification of stories, same time, same place. (1962)

(4) BIVINO, Sus (Dr.): Eminencia national. (1963)

(5) CHAVEZ MEDINA, Marcelo: With South American accent, unless clandestine contact arrangements are made VERA. They seem to have alternate meeting sites. In one case, this person, who is probably one of VERA's agents, is instructed to be at site No. 1 at 0730 hours. (May, 1962)

(6) CASTANDES Flores, Leonardo: Cuban Communist, FIV member. Involved in Communist party smuggling in 1960.

(7) CHIFRE, Ruben: Colombian, one of the Tenenens on his way to Cuba. (1963)

(8) CASTRO, Victor: South American. A VERA contact, Apologizes for calling him on 26-phone but requests contact for 10 o'clock. (August, 1962)

(9) CASTRO, Victor Manuel: 261-626, Cuban Communist, one of the most important contacts of VERA. Most of meetings that have been arranged clandestinely. CASTRO used Dr. Alvarez as an alias when contacting VERA and their meeting sites are usually referred to as "al consulados". Victor Manuel CASTRO recently did some work for VERA at the University of Sanlago.

The following meetings, recorded by sources, were held on the dates indicated during a one-year period:

<table>

It is interesting to note that CASTRO, who also used to meet Mr. Juan

Loy ALVAREZ (261-626), Cuban National, clandestinely, used to refer to himself as "JOE" when requesting a meeting.

CASTRO very frequently uses an open code when communicating with VERA. For example, 26 digits means tenenens, 626 means Eminencia, 626 means meeting site.

(10) CASTRO, Rosa, Judith: (261-626) Cuban Communist. She is a notable activist and Partido Vanguardia Popular (Cuban Communist Party) representative in Havana. (19 September 1963)
(11) BREDA Ayala, Arnulfo (201- ), an Argentine national who is
new director of the Punto de Cultura Economica, a Marxist publishing
house in Buenos Aires. Subject seems to use this person, and logically
so, as a propaganda outlet.

g. CUBAN EMBASSY ASSOCIATES

(1) JAIME Lopes, Rosalia (201-532665) DDI official. Subject and
JAIME LOPES complement each other operationally.

(2) ENRIQUE Funes, Oscar (201-789525) DDI official.

(3) FERNANDA Montoto, Ramon Cesar (201-528945) DDI official.

(4) CASTILLO Sanchez, Benigno Carlos (201-786889) Former Cuban Commercial
Attaché in Mexico. Identified as DDI officer.

f. SOVIET EMBASSY CONTACTS

(KURATSKY, Boris Aleksandrovich (201-50975) Soviet Embassy Counselor.
Known contact between Subject and KURATSKY on 9 May 1963. DDI officer.

5. INCOMPLETE NAMES AND UNIDENTIFIED CONTACTS

The following contacts, consist of incomplete names which the Station has
been unable to identify. They are listed here because they seem to be of
some significance:

(1) Manual - Conversation as follows: "Will wait for you at prearranged
site;" (1963)

(2) Eduardo - The gist of Eduardo's comments when making contact with Sub-
ject are as follows: Subject replies to Eduardo's request for news by
saying that he has no news. VEGA will tell Eduardo to meet him at a
specific site for a talk. (1963)

(3) Guillermo - This individual has the following message for VEGA; "news
of yesterday" (See W6DD-5050, 17 June 1963).

(4) Sanchez - A person with a Central or South American accent who limits
his conversation with Subject by stating that "our friend" arrived last
night.

(5) One of the most interesting, unsolved calls was received on May 13, 1963.
On this occasion, a man with a Mexican accent contacted Subject and the
following conversation transpired:

Mexican - Of the devices that we had pending we have one of the spe-
cial ones.

VEGA - When can you deliver? Can we have it today if possible?

Mexican - I will have it ready for you within half an hour.

VEGA - Good. I will wait for you at the same place as the other
day at 10 minutes past 10.

Mexican - In the cinemascope?
Comment: This is the total content of the conversation. The caller indicated at the beginning of the conversation that he was calling from a public telephone and requested immediate contact with VEGA. (May 1963)

(6) Odelia called Subject and when she found that he was not available, left the following message: "Call before you come to the house; I am working at the school. If you do call in the morning, call before 9 a.m. If you call in the afternoon, call before nightfall. It is urgent that I communicate with you." (December 1962)

(7) Ingeniero Gonzalez - This person is a contact of VEGA but due to the common name it is impossible to identify him any further. (1964)

(8) Don Refugio - This person is a contact of VEGA who is from Acapulco, Guerrero, Mexico. As in the case of Gonzalez, it is almost impossible to identify Refugio due to the common name. (1964)

(9) Don Refugio - This person is another contact of VEGA. A search of Station indices does not reveal any traces. (1964)

(10) Don Refugio - This individual appears to be a contact not only of VEGA but also of Rosario RODRIGUEZ. (1964)

(11) TOVAR, F. M. - The station has been unable to identify this person. He either lives or works on Avenida Cuyo Suyo, Mexico City. (1965)

(12) DUARTE, Denny - The Station has had no luck in identifying this individual. He is obviously not a Mexican, judging from his Caribbean type Spanish accent, but no factual identifiable information is available at present. (1965)

(13) ACOSTA, Julio - Recent contacts which began in late July 1963 and continue to the present. The only possible lead that the Station has concerning this individual is contained in HANA-21497, dated 7 June 1963.

19. MODO OPERANDI:

The following facts concerning Subject's modus operandi were culled from information available to the Station:

a. Subject's contacts use assumed Christian names in arranging contacts (i.e., Guillermo, Alfredo, et cetera), as well as professional titles (i.e., the doctor, the lawyer, etc.).

b. Subject has alternate meeting sites. In one agent's case, he ceased to have 4 (i.e., sitio 1, et cetera).

c. At least one agent identifies himself by number (i.e., Agent 17 speaking).

d. Subject's agents use open code when seeking contact by telephone.

e. In at least one case, the agent has apologised for having to resort to telephone contact, so apparently some agents have been cautioned not to call him at the Embassy.

f. HAMA-12563 has interesting details concerning Cuban M.O. for infiltrating people into Cuba.

g. All people going to Cuba, legally or illegally, must first contact Subject. He takes biographic data and sends it to Cuba for name checking. This name checking procedure normally takes 15 days.
h. Authorizations for free air travel to Cuba are signed by Subject and addressed to Jorge L. RAJAS, Mexican Chief of Cubanos de Aviación. The Station has on file one of these authorizations, which also reflects a sample of VERA's signature.

i. There are indications that important clandestine calls into the Embassy are made from public pay telephones.

j. Subject and Rogelio RODRIGUEZ Lopez seem to complement each other in Cuban intelligence operations in Mexico. If one is unable to make a contact or take a telephone call the other will substitute.

k. See OTMA-1602 for organizational details of Cuban Intelligence.

20. OPERATIONAL PLANNING DATA

a. for access:

(1) current residence: A review of Station material indicates that Subject no longer resides at the Hotel Agnes and no access to be permanently installed at the Cuban Embassy compound. The Cuban Embassy is located at Francisco Marques 160, Colonia Condesa, Mexico City. In late 1963 Subject gave the following address in Cuba where he could be reached during his absence from Mexico - Calle 11, Number 506 between A and Fernandez Latorre, Havana, telephone no. 99-43-82. This is apparently an unlisted telephone number, since a check of the Havana reverse telephone listing failed to show the subscriber's identity.

(2) telephone numbers: 14-92-14, 14-13-26, 25-19-05.

(3) automobile: In 1962, Subject most frequently used a 1959 Skoda registered in the name of the Cuban Embassy, Mexico City. Throughout the entire year of 1963, Subject used most frequently a 1962 Plymouth that had Consular tags #27. This automobile is registered to the Consulate General of Cuba. Beginning in August 1963, Subject was using, infrequently at first, and more frequently as time went on, a 1937 Chevrolet with diplomatic tags 165, which in 1963 was registered in the name of Raúl Sinobad, First Secretary, Cuban Embassy.

(4) current pattern of daily activity: It is rather difficult to discern any definite pattern in Subject's daily activities. A detailed study of LICELIM production for approximately one year indicated that Subject left the Embassy about three times a week using automobile C-27. He would depart at about 10 a.m. and return at noon. It is believed that these times coincide with the arrival of Cubanos de Aviación flights from Cuba. There has been a noticeable decline in Subject's telephonic contact with strictly overt and clandestine contacts since November 1963.

(5) Usable contacts - LITAMIL/7, and LITAMIL/9. Handwriting samples and voice samples of Subject are on file at the Station to be used for further operational planning against Subject.

21. OPERATIONAL STEPS TO BE CARRIED OUT IN NEXT YEAR

To be determined by Station's operations officer in charge of Cuban operations.
