1. HQS has no evidence that SOVs have advance copy of photo. Commission sources assure us that copy of photograph furnished by the FBI has also been altered to black out the background. At present the annex is scheduled for release around mid November.

2. Considered opinion here is that SOV action per ref. would seem to be a logical next step as a precautionary measure on basis of published commission report. That a thought security survey should be done at this time either on Soviet embassies own initiative or on request from Moscow is not at all surprising, independently of any specifics contained in the commission report.
