E. MIAZA, which is believed possibly to be located in Mexico, has been inactive for approximately six months. In this case, there was a previous lengthy interruption in traffic. There is nothing about this agent and probably will not be able to be investigated unless messages to him appear on the following due to information received to assist in his identification. In the Mexican aspects of our knowledge.

F. BELTRAN, the location of whom is unknown, came to the address of a message in late June 1963 after an interruption of over seven months. Contents of the earlier traffic indicate that BELTRAN was to have an accommodation in Mexico City.

G. JULIO. Two messages only, dated January and May 1963 were transmitted to this agent. Contents of one of these indicates that he is located in one of the Central American countries.

7. Agents and agent complexes under joint investigation by the PBRUMEN Division and ODENVY (or by ODENVY alone) are described briefly below. As you are well aware from the recent SOFEMP these too have their peculiar aspects.

A. AMAPOLA, with outstation located in the Miami area has for its main objective the penetration of KUBARK and exile operations directed against PBRUMEN. One important agent, possibly the PA, has been identified by ODENVY and is a naturalized U.S. citizen of Cuban birth. ODENVY is currently reading his [incomplete message] and KUBARK is now interrogating a WAVE asset who has an unexplained connection with the agent. Another WAVE asset who had had contact with the agent, has been interrogated and found to be clean. A third WAVE asset in contact with the agent, has been turned over to ODENVY for possible use again the agent.

B. STRAFITI, with outstation located in Puerto Rico has been inactive since mid-June 1963 when the principal was called to Cuba apparently as a result of discovering the surveillance. ODENVY could not apprehend the agent, who is a U.S. citizen and there was insufficient evidence to deport him. The agent had several contacts and/or support, presumably are still in Puerto Rico, and, in addition, had contacts in New York City. The main objective was to penetrate exile operations against Cuba.
