1. The presence of so many new desk personnel at headquarters—people who are unfamiliar with station history—means that we must turn to you with questions oftener than you might wish. Our present question concerns property involved in LIEMPTY. (We are submitting the project as received from the field, but do not understand the background very well.)

2. HMMA-11257 of 16 January 1959, a project renewal, said that "approximately one year ago the LICALLA base was purchased by KUBARK through LIMOUSINE", and we have not found any cables or dispatches which would show a change in that status. Does MEXI 03 LIMUST/LIMESA (see Real Property Report of August 1967) Include LICALLA? If so, and if we own LICALLA, why does it cost us $1800 a year for rent and utilities? (Up until the submission dated 1963 the project renewal used to say "LIMITED and LICALLA rents are returned to station by LIMOUSINE and credited to station miscellaneous receipts" but after that time this sentence was eliminated.)
