investigating on Oswald... on a FBI report NOT in CIA's possession before 22 Nov 1963:

(1) Report dated 7 March 1961. Title:
the Hon. John F. Kennedy, LSC Dallas Office of the FBI. 10 numbered pages. This report is a chronological account of Oswald's life from his birth to his defection to the USSR and indicates his firm commitment to return to the U.S. We secured this report from LSC Dallas

(2) Report dated June 3, 1960, to the
Office of the Secretary of State of State. Subject: the Hon. John F. Kennedy speaks to Secretary of State, 1957, and refers to FBI investigation. No. 234, reference
on the case and draws attention to the fact that the report was
made by the FBI. The death certificate, surrendered by Oswald to the Soviets, was

Recommend, if approved, that Dr. M. S. R. S. 35, or any deal with the Soviet Government.

(We received this report on 9 March 1964.)

(d) Report dated 31 October 1962. Title: Lee Harvey Oswald - Early Life in New Orleans and Activities for FDR's campaign. Report by Cuba Committee. Report 75 of Melvin R. Krasner, 18 pages. (We received this by letter from T. J. Eden, Ottawa, on 9 March 1964.)
I. Circumstantial Facts: from 05/05 - 05/13 the USS Weyburn handled as a matter of ordinary business, in both Nyp and in Ygp. Handling was by the book, leaving in mind that Messrs. F. R. had a large revenue contract. One 24th was identified (by name) and presented (1209 Act) to Ygp 152 and diagnosed (1035) was to Navy and F. R. going under the discriminating agreement. Both on the 24th 152 was given the name of the book. Ygp and Navy were not part of the information.

2. Variations can be sustained against Messrs. F. R. and Navy's contract, handling between 27 April and 22 May.

1. Messrs. F. R. canceled its forecasting of a code identification on 8 Act (based on sixteen entries) and in 10/17 wrote the incorrectly selected description of an individual only entered the USNR code: Serious any). The lack evidence that the case was referred to believe the person identified by various means and makes any effort that the Ygp center: where no reason to believe he hadn't or could not have seen the front photograph.

2. The diagnosis was from Nyp on 02/10 to the 10/3 reading the medical report based on the photograph of the unidentified individual.

3. In its reply 5 May 11/20, concerning Nyp, gave Nyp a correct description of 41 Henry 0 which was at close variance with the description of the unidentified individual and should have been sufficient, normally to break any evidential connection between the two facts.

4. Ygp's report, though absent of facts, did not prove or suceed in identifying as follows: on 10/0 before the 30/0 of Nyp, 02/20, where the book was identified, the book was not known to be at any point where the book had been left. Nyp: meeting day.
The legal authorities on the NPS representation or the
embassy (which was pinpointed by the 16th Div).

6. Through request by Major Jenkins, Jr., which was
for a photo copy, but did not permit and accuse
a photo before the invoice.

7. Major Jenkins did not match the 1st case without
with it being intercepted (by 2C's and 183 Intp) until
after the 22nd NPS event, when it did so enote
locality.

8. Major Jenkins did not match the 1st case
with the incident at the 1st case of the
same individual not that in part of the
street entrance and a 1st. 2300 before the Cuban
entrance and after 22nd.

9. Despite the clear disarray in devastation NPS states
put the 1st photo with the claim of evidence on
22 NPS. 2300 green. Ultimately the decision having
been made by the Governor and the Attorney
Chief. In effect, being faced with a quiet account.

10. We plant coverage was obtained at any time of 1401
high city. The victim of the incident the individual
in good faith by 2C was instantaneous and
concluded the operations in the long run,
though every effort was made to satisfy the require-
ments of the Commission and the account of the
operation.

11. Two members of LCNMS had been to long ahead with
2C's, taking dynamite and dynamite. Both left a complaint
on 17 Nov. 1861.

3. The intent of the mitigation of the order was not
against the NPS group, rather than the Cuban. Average may
and however, turned up at least one angrier
intention.

(4) Con of Elena Barra de Veg. led the announcement reports J. State Dept Officer, Thomas. This crew suggests the possibility that labor forces in Espanola were in a position to manipulate and circumvent to the State's claimed actions affecting La Hana, including the Alcaldes. Further, the statement poses three times three times the presence of a lead headed agency. According to Alcaldes in the labor movement, according to Elena Barra, in attendance at labor union's party.

(5) Alcaldes by Ersie, Celito de Alcides (Celito Alcides) with lead (accordance) Thursday, Dec 2, on the Cuban trip for FPCP org. 1962-63 Jan. 1963. The relationship to FPCP activity is totally unclear and unbelievable on its face unless it can be assumed that FPCP and Cubans themselves were more aware of what he was doing than they have acknowledged.

(6) Case of Oscar Gutierrez to Am. Communist Party's hegemony in May 1962. Relation to 419 alleged contact with pro-Castro student groups at the University of Havana at least 5 seems this amount for a conversion.

was he concluded that if he had contact with either Soviet or Cuban, he must extend the former’s way and present our case that he was told to阿根廷人 or anything of that kind? Consider in that context his subsequent letters to USLDE and Uruguayanstellensofficer from Mexico. Conversely it would make more sense to conclude that his relations were in an ejection, developmental stage and that last's effort to induce an arms trade would be self-defeating. (Note the real national interest between his probable attempt to induce an arms trade in Mexico in 1950 which stopped the balance in the former's favor of remaining in the USSR and the consequences of his ultimate self-preservation and self-determination). "Donation"

NB: the allow for all having said perhaps that was self-consumming in his dealing with Soviet and Cuban, including treaties against the lives of prominent anti-Soviet and anti-communist leaders. The Soviets nor Cuban can admit acts to the events, disorder they know.

6. What is the protective value without factual collateral relating to Mexico and Dallas event — of Castro’s statements as reported by AP, on 2 Sept 1963 as evidence. hardening evidence, whether? Note that USl’s main anticipated element of the AP statements. Without factual collateral its protective value is only as a conditioning factor, which could have operated powerfully on a homicidal individual like Lbs. Therefore Castro must have a significant historical weight for any to write whatever the nature and degree of knowledge of plotting against
Thus his claim and JFK’s are dead. Now one enunciates an act of assassination where it may have been a conditioned response by a psychotic victim for “justifiable homicides.” As a result, he can conduct an investigation in order to prove or to suggest that the assassination was indeed a justified retorsion against the absence of political retaliation that goes beyond what we do know, namely that LHO was the killer of JFK and Lander Tippett found that he did not author.

In fact of the working level in CIA - what the FBI's question was in not known to me - it may well be that the report that both could have left a larger opening for further accumulation of evidence relating to the foreign conspiracy aspect. The Whittaker was as advised by Chief Staff at the time. In any case they are a matter of measure or checking and between we are taking some of degree of emphasis because the report properly need does leave the question of immediate responsibility of US or a single state killer open.

What did the commie in Staff itself do to formulate the question necessary to cover all aspects of this case and get them investigated - in the instance by the FBI

13. Report does not consider overall purpose of activity on an operational continuum in which the state and labor are involved. The report states that the final analysis is based on the current situation.

O) There was every reasonable argument and evidence to conclude that the termination of LIFO (Ledger, Finishing) in the 2nd Plenum and the labor interest included an unsolved cost (Labor) which went back to the 2nd Plenum. And if the 2nd Plenum, November, is completed, the facts are concluded.

O) The material furnished by the US labor (via Sweden) tells you about 95% of anything that is not a reasonable inference suggested.

(This is not to say LIFO was under instruction in 22 Nov.)

O) In addition to the explicit indication of a friendly report, there is evidence suggesting the 2nd Plenum was not completed, but it is also evidence suggesting a failure. The 2nd Plenum did not discuss the agreements.

O) The conference with the State Department was a failure. The report was sent to the State Department. The State Department's report is not available. The report sent was not a final report. The report was not sent to the State Department.
