MEMORANDUM FOR: Director of Central Intelligence  
FROM: Executive Director  
SUBJECT: Completing Work on JFK Assassination Records

1. Your office has asked whether additional resources are needed to complete work on the JFK records by the deadline established by Congress of 22 August 1993. Barring the unforeseen, we should meet the deadline.

2. The Historical Review Group expects to complete review of all hard copy files (some 250,000 pages) by early June. Since coordination with the directorates has lagged, we have taken steps to increase the number of directorate reviewers. The DO has approximately doubled the number of reviewers to eight. They are committed to adding additional resources if required.

3. The second problem is the need to prepare identification aids for every document transferred to the National Archives. I have given approval for up to 20 indexers and document analysts to work overtime on this effort.

4. A potential problem exists in processing a box of microfilm, which contains the equivalent of some 172,000 pages of additional material. The Historical Review Group believes a large part consists of duplicates of material already reviewed. They should know whether this assumption is correct within the next few days. In any event, I will assign additional resources if needed.

5. The President has yet to name the Review Board called for by the JFK Act; therefore, we cannot determine whether the board will have additional requirements for us.
