Jeremy Gunn, Executive Director of the JFK Board, told HRG yesterday that Congressman Dan Burton may well write a letter to the EXDIR expressing concern about whether CIA will be able to meet the deadline for declassification of assassination-related records. Burton chairs the Government Reform and Oversight Committee which has cognizance over the JFK Board.

Gunn said that he briefed members of Burton’s staff last week and told them he was concerned that the Agency may not have enough resources dedicated to JFK to finish the review of documents by 1 September 1998. Gunn showed the staffers the recent exchange of letters between the Board and the EXDIR on the same issue. According to the staffers, Burton has a strong personal interest in the release of the assassination records. The staffers gave Gunn the impression that Burton’s strong interest will prompt him to write to the Agency.

During our discussion with Gunn, we reviewed with him the Agency’s clear commitment to declassifying all assassination records. We also explained that we have shifted four additional contractors to the JFK project, and will shift more if necessary, even at the cost of slowing down or stopping other declassification efforts.
