Talking Points with DDO on JFK Board Issues

- We are coming very close to finalizing what has been a significant resource draw on both the DO and HRP/OIM over the past four years.
- Most issues have been resolved satisfactorily through negotiation in good faith by the Board and ourselves.
- There is a desirability to resolving remaining issues in a way which does not result in rancor or accusations of withholding by CIA—If possible we would like to avoid an appeal to the President.
- There are, however, a number of documents upon which we have not been able to come to resolution. Among them are:
  - **Elder Document** (Angeleton/embassy break-in). The EXDIR, without OIM input, has decided to appeal this document. We believe that there is a possibility the Board would take it off the table if, per their request, we provide the true names of the ident to the cleared Board members (which are incidently, available already in a widely disseminated book on Angeleton).
  - **Mexico City Station History.** Chuck Briggs and Barry Harrelson are continuing to negotiate between the DO and a JFK staffer on issues which are peripheral to the JFK story.
  - **Directorate declarations** which supported the EXDIR’s declaration of Compliance. We have resisted provision of these “internal documents” to the Board, and the IROs were led at the time of preparation to believe that they would not be provided to the Board. However, as a last minute decision, the Board has sought them as supporting “administrative records” which reflect the extent of the searches conducted (comparable to what other agencies are providing) If we provided them, we would be in a position to delay further review of sensitive material in these documents until at least the year 2017. In our view we cannot legally withhold these documents if the Board declares them “Assassination Records,” which they have the right to do. Provision of these documents would enable us to close this issue and avoid further controversy. The Fred Wickham has been unwilling to permit his declaration to be provided.
  - **CI History Pages.** JFK Board Staff recommendations are currently being reviewed by DO/CIC. We believe this can be resolved through discussions.
  - **Miscellaneous.** There are a number of remaining documents on which we have disagreements and in which we may lose some information, including privacy information, but over which we are still discussing the details.
  - What is not solved today will go the Board and be voted upon either this afternoon or tomorrow and we need to have the DO’s final view on providing the ident on Elder and the DO declaration as well as authority to negotiate the remain peripheral issues.
  - I would like to call Judge Tunheim and suggest further discussions between him and myself which would be final.
