MEMORANDUM FOR: Director
Federal Bureau of Investigation

ATTENTION: Mr. William A. Branigan

SUBJECT: Conference of the Committee to Investigate
Assassinations, Report on Proceedings
23 November 1973

1. Herewith a report containing partial coverage on the events during the first session of the Committee to Investigate Assassinations, together with material (which is overt) made available on the floor of the conference.

2. We would be interested in anything you develop on any of the other sessions of the conference.

FOR THE DEPUTY DIRECTOR FOR OPERATIONS:

APPROVED FOR RELEASE
Date 27 May 1978

Enclosure: Report w/atts

GIR-316/03107-73

1. The Committee to Investigate Assassinations claims to have been established in 1969. The headquarters are in Washington, D. C. (at 1520 16th Street, N. W.). In the four years of its existence the Committee has done research and has become a kind of clearing house for the study of assassinations. It maintains contact with other groups engaged in similar activity, of which there seem to be at least two, one of which is located in the Boston area.

2. In addition to research, the Committee acts to help individuals interested in the investigation of assassinations. It thus files suits for private persons demanding access to classified information. It sponsors the publication of books and articles relating to the field of its interest, and sponsors the production of movies. It publishes a newsletter.

3. The conference of November 23-24, 1973, is the first of its type to be held by the Committee. The Georgetown University was helpful by placing Gaston Hall at the disposal of the Committee free of charge. By agreement with the University, the Committee will also be able to use the services of the University Library as a repository and research center.

4. The Conference opened on November 23, 1973, with a delay of about half an hour. The delay may have been due to the installation of recording equipment which literally covered the premises with a tangle of wires of every kind. The Washington Post reports an attendance exceeding 300. This is a generous estimate. After deducting official speakers, recording personnel, and press representatives, the audience probably numbered no more than 150, if that many.
5. Beards and long hair prevailed, and others stood out like a sore thumb. There was not a single Negro in the audience, nor, that morning, on the platform. Even the speaker who spoke on the case of Martin Luther King was white.

6. Not all the speakers preannounced were present. The chairman announced the absence of Richard Sprague. Another speaker, a lawyer from Los Angeles whose name was drowned out in the noise, was also absent. They were replaced by Dr. Robert Forman and someone whose name sounded like "Ed Kirkley".

7. The chairman announced that all the speeches would be tape recorded for subsequent publication. He further invited the audience to attend movies to be shown that night. One of these, "Burn", was to be shown at the University. Others by prearrangement would be shown at local movie theaters. The latter were connected with the Kennedy assassination. The case of the President's murder was in the center of the conference and, as noted by one of the organizers (Smith), one half of the speakers were to center their attention upon the Oswald case.

8. The chairman adhered strictly to the program and every speaker mentioned in the program for the morning session of November 23 spoke as specified. Of those who spoke, Norman Mailer, Robert P. Smith and Ronald Van Doren deserve particular attention. Their speeches in summary are reviewed below.

9. A table at the back of the audience presented recommended literature. The books included H. Weinberg's Whitewash and Peter Noyes' Legacy of Doubt. For some reason there was a copy of one paper only, that of George O'Toole's "Assassination Tapes". There was also a bibliography of political assassination; the foreword to which lists the persons most actively collaborating with the Committee.
10. A publication circulated during the conference was the November, 1973 issue of Computers and Automation which is to be renamed, starting January 1, 1974, Computers and People. The publication of articles such as "Nixon and the Mafia" which concludes that Richard M. Nixon seems to be the embodiment of a prediction that organized crime would someday put its own man in the White House, seems somewhat curious in a magazine devoted to the profession of data processing and the use of computers. The magazine was established in 1951 by Berkeley Enterprises in Massachusetts. Alger Hiss is among its contributors and an abundance of articles by Richard Spurgeon on the subject of Watergate published in the past year.

11. Another organization which received publicity at the Conference was The Committee for Action/Research on the Intelligence Community (CARIC).

12. A representative of Computers and Automation handed out this publication free of charge to members of the audience. He took notes with fantastic speed and apparent accuracy of everything said during the proceedings.

13. The lights gave out at one point and did not come on again during the morning session. The absence of current may have affected the tape recording.

14. The morning session, due to close at 12:30, ended after 1:30 p.m. By this time the audience was impatient to have lunch, and the resumption of the proceedings was therefore postponed to a later hour.

15. No document of any kind was issued to the persons who paid $15.00 to enter. Instead their hand was stamped with the name of the organization which gave them access to all further meetings that day and the next (the members of the audience were apparently not supposed to wash their hands during this time). Names were taken down, but no questions asked other than one's initial. No information on address, occupation, etc. was required.
16. **Speech by Norman Mailer.** This was beyond a doubt, the most striking presentation during the Friday morning session. Mailer spoke briefly and left the conference shortly after the speech.

17. Mailer said that political intelligence as a subject was as powerful as "peace". Interest in assassination is obsessive. The obsession arises from the fact that a solution to the problem is not found, and attention is constantly drawn back to the unanswerable question.

18. He said that we have here the most powerful nation in the world which cannot come to grips with a question which seems as amazingly simple as the Kennedy assassination. The result has been that this nation has decided to shut down investigation and has thus alienated itself from its own history. This alienation has brought apathy, a trait noticeable in the reaction to investigations which bring no wide response.

19. A nation which rejects its own history is on the path to a totalitarian regime. Facts, meanwhile, have a peculiar ability to change when they are investigated, and investigators must therefore rely upon hypothesis. The history of the last ten years has been made unendurable by the abundance of hypotheses. They range from the opinion that an assassination is an accident lacking any particular sequence to the hypothesis that secret police forces are engaging in a world conspiracy.

20. The present conference must help us to learn whether there are possibilities, and what possibilities exist, to solve these questions.

21. **Speech by Robert Pro-Smith.** Mr. Smith was described as the director of research of the Committee, but he seems to be one of the major motive forces in this organization.

22. Mr. Smith pointed out that he had spent the last three years studying the Kennedy case. Much research had been done, but nothing had changed, so far as practical action was concerned, in the last nine years.
27. Speech by Ronald Van Doren. Mr. Van Doren seems to be a follower of Governor Wallace. He began by commenting on the sad situation in a country with a judiciary where individuals have to make conjectures regarding a case as obvious as that of Bremer. There is no doubt that Bremer pulled the trigger. But one should examine the political situation at the time of his action. Wallace was by far the leading candidate in the election campaign, a threat to other candidates, and he was winning the nomination. He represented a challenge to both parties. Nothing he said could be interpreted as racist, and in the economic sense he carried wide appeal. The question which faced the other candidates was how he could be stopped from disrupting the two parties and from preventing the re-election of the President. History will show how he was stopped and why this occurred.

28. The case in defense of Wallace’s civil rights was quietly dropped. No proper investigation was conducted. As usual in assassination cases there was a diary. It showed that Bremer was acting alone and was deranged. Read as a piece of literature, the diary presents Bremer as a non-person, an illiterate unable to spell. There is nothing regarding the people he worked with. Meanwhile, if one examines Bremer’s background, he appears an entirely different person. Why did he travel repeatedly to Ottawa? How did he manage to carry guns on planes? What was he doing in New York? Why was he in Washington? And where did he get his funds? The apartment he rented exceeds his annual income. His mother could not afford to visit him in prison, yet he dressed well. With whom was he involved?

29. All this should be looked into. Watergate brought the electoral campaign to the fore. Why has discussion of the Bremer shooting been excluded from the investigation? Bremer was a part of the 1972 campaign, yet there is no mention of Wallace or of Bremer. Two years from now Wallace will be back.

30. Speech by Ms. Meredith Rode. Ms. Rode was very brief. She said she became interested in the killing of George Lincoln Rockwell in 1970, and that the case was built on circumstantial evidence exclusively. The case is still open, for the police believe that there was an accomplice. No funds are available for defense.
23. Although the National Archives are the repository for the Kennedy assassination documents, the FBI and the CIA are responsible for restricting research. Much of the 300 cubic feet of documents have been printed, a reclassification in 1971 has released 3,000 pages, and the CIA later released more, but none of the material released has created any sensation. The Freedom of Information Act is not as liberal on assassination material as on other matters. Some material was not even turned over to the Warren Commission. The FBI and the Justice Department are alone in knowing the results of some tests.

24. In the non-governmental area, much has been published, and the book by Peter Noyes must be singled out particularly.

25. Speech by Mr. Robert Hanson. Mr. Hanson has become the counsel for Sirhan Sirhan. He studied to become an engineer and then shifted to law. (To judge from the number of cases which he says he has lost, he should have remained an engineer instead of becoming an attorney.)

Mr. Hanson said that the Sirhan case is pretty hopeless. The trial was based on a 100 per cent belief in Sirhan's guilt. Therefore important witnesses were not called, and no attention was paid to ballistics. Scientific study, however, indicates that Sirhan Sirhan may not even have been the person who committed the crime. But even if it is proved that his gun did not kill Robert Kennedy, this discovery may have no influence upon Sirhan's case. California officials have no desire to reopen the case and funds to handle the proceedings are lacking. A book by Tiger on the case is worthy of note. Tiger claims that Sirhan Sirhan was acting under hypnotic influence.

26. Speech by James Lesar. Mr. Lesar, who spoke on the Martin Luther King assassination, declared that Ray was innocent, and that the FBI and the Justice Department were responsible for wrongly solving the crime. Ray was framed by conspirators. The persons presently involved in Watergate played a role in the Ray case investigation. No private agency - only a government agency - can solve the Ray case. All depends on whether the judiciary acts honestly or with political consideration in mind. As it stands today, we see Ray's rights having been abominably violated; we see lawyers who did not do their job; and we see nothing approaching an open hearing.
31. There was also a speech by Robert Salzman who was long-winded and technical. No useful coverage available.

32. Copies of materials which were available at the conference are attached.

D. Announcement. The announcement states that Senator John Stennis will begin hearings on his bill to amend the National Security Act, in regard to the clarification of the authority of the CIA.

ANNOUNCEMENT

Senator John Stennis, Chairman of the Armed Services Committee, will begin hearings early in the New Year on his Bill No. S.2597 -- to amend the National Security Act -- in regard to clarification of the authority of the CIA.

The bill recently introduced by Senator Stennis resulted in part from correspondence with Senator Edmund Muskie, Chairman of the Senate Disarmament Subcommittee. To some degree, these hearings were inspired by the Watergate developments.

People with knowledge in the areas which might be fruitful for investigation should be in touch with Senator Stennis' Committee. For further information, contact the Task Force For A Nuclear Test Ban, Betty Lail and Jo Pomerance, Co-Chairmen, care of the Project on Budget Priorities, 1620 Eye Street, N.W., Washington, D.C. 20006.
PUBLICATIONS
CARIC publishes a bi-weekly INTELLIGENCE REPORT and a quarterly newsletter COUNTER-SPY featuring various articles examining the structure and operations of U.S. Intelligence. In addition, CARIC publishes occasional pamphlets on various concepts in the craft of intelligence. CARIC also provides reprints of selected articles on demand which have appeared in other publications.

CARIC is preparing a guide to U.S. Intelligence which will serve as a reference tool to the public to understand the hidden world of government operations. We urge that any controversy raised by this guide or any other CARIC publication will lead to public debate and resolution of the issues involved. Our analysis is based on a firm belief that no human being should be denied life, liberty, or the pursuit of happiness by our government or its agents. CARIC publications aid the public's effort to ensure the validation of this concept by those in our government.

IN-FROM-THE-COLD HEARING
CARIC will sponsor In-From-The-Cold Hearings featuring public testimony by individuals intimately involved with U.S. Intelligence. The hearings will focus on American intervention abroad, domestic surveillance in this country and the effects of secrecy on the individuals' personalities. Former Intelligence workers and those who have been victimized by the Intelligence community will publicly relate their participation in activities of our government which can no longer be ignored by good citizens.

Who knows what future political espionage will occur under the guise of so-called "national security" or loyalty to an administration? Only time will tell, but through diligence and your help CARIC will anticipate and bring to your attention situations within the government that are likely to produce a new "Watergate."

Although CARIC does believe that a massive government spy apparatus is at work in the world, we hope to dispel some of the paramilitary citizens naturally feel when there is talk of spies and wiretaps. We know that the FBI does not have agents behind every tree, but there are agents in every major community in this country who have spied on innocent private and public citizens. Only a full and undisguised look into this hidden world can dispel unwarranted fears and guide the public effort to end this illegal and unjustified espionage. The secrecy with which the government surrounds itself must end.

CARIC knows that tens of thousands of American citizens from all walks of life were mobilized over the past decades to help bring an end to the government's war in Indochina -- a war that has taken more lives on the streets than in Indochina. CARIC continues its mission to mobilize to stop the spying as we stopped the dying. Please join us in our effort.

THE COMMITTEE FOR ACTION/RESEARCH ON THE INTELLIGENCE COMMUNITY (CARIC)

INTELLIGENCE REPORT

CARIC ORGANIZATION

CARIC is organized to reflect the operating procedures of a typical intelligence organization. Our research process involves collecting information from a wide variety of sources both public and private. Our analysis is the collective product of CARIC participants and eliminates any compartmentalization of knowledge. The information and analysis is then disseminated through CARIC publications and works by CARIC participants. In addition, CARIC provides information to other journalists and qualified researchers.

SPEAKERS BUREAU AND WORKSHOPS

CARIC maintains a listing of members available to groups on a variety of subjects ranging from the foreign programs of our government to the problems of criminal justice. Our speakers include former intelligence workers and informants familiar with American intelligence.

CARIC will periodically conduct workshops for schools or community organizations.

OPERATION PROVIDOR -- CIA assassinations in Vietnam

SALEM HOUSE -- Preparations for the coup in Cambodia

The CIA in Laos

OPERATION EQUIDEN -- An introduction to the counter-intelligence war

Federal Planning for civil disturbances

The Internal Security apparatus and Watergate

MULTI-MEDIA BRIEFING

CARIC will soon augment our workshops with briefings on U.S. intelligence featuring slides and a video recorded interviews. The exhibit will dramatize the illegal and unwarranted activities of our government.

The first element of the multi-media briefing is the growth of the internal security apparatus as of 1974. The slide show is followed by a Q & A. 

The slides are available upon request from CARIC.
