Mr. E. Henry Knoche
 Central Intelligence Agency
 Washington, D. C.

Dear Mr. Knoche:

In connection with our inquiry, I would like to request copies of certain documents referred to in a May 15, 1975, memorandum, which has been forwarded to us, entitled "AMB Research of DPD Files Related to Cuban Operations." These documents were provided by Mr. Seltzer of your Inspector General office to Mason Cargill of my staff on May 21, 1975, for a review; however, copies were not provided at that time. The documents we require are as follow:

1. Memorandum for the record, unsigned, undated, Subject: "First Meeting of Branch Four Task Force, 9 March 1960." This memo outlines the meeting of the Branch Four Group which apparently was to concern itself with covert operations against Cuba.

2. Cable, dated August 30, 1960, from Headquarters to This cable reads as follows:

- "1. Attempting obtain one helio. Expect this to fulfill all operational and emergency requirements.
- 2. RE REF B PARA 2B Do not approve. Justification assignment this acct for strict operational and emergency."

3. Cable, dated April 4, 1961, to BELL from This cable, written in Spanish, appears to be a request from an agent within Cuba that certain equipment be air-dropped to him. Among the items requested in this cable, are one .50-caliber machine gun, two boxes of Springfields with telescopic sights, plus other weapons and rockets.

"March 23 I told Luis Bueno to ask you opinion regarding sabotage Cia. Electricidad (electric company) in order to leave Havana ten days without power. We can coordinate with attempt against Fidel in public appearance (at) Sports Palace. Suggest attempt against Fidel in accordance with general plan. Light and Fidel possibly can be coordinated with Pinar del Rio. Reply urgent. Monty."

5. Cable, March 29, 1961, from BELL to [redacted]. This cable recounts another message apparently received from an agent within Cuba. The agent who sent this message had the cryptonym "NOTLOX." The English translation of this cable reads as follows:

"Plan (4) 9 April. Fidel will talk at the palace. Assassination attempt at said place followed by a general shutting off of main electric plants in Havana Veladura. 6. Cable, dated April 5, 1961, to BELL from [redacted]. This cable, an information copy of which was sent to the DDP, transmitted a message received from an agent within Cuba, whose cryptonym was NOTLOX. The English translation of this message is as follows:

7. Cable, dated June 4, 1961, to BELL from [redacted]
This message transmits a message received from the agent NOTLOX from within Cuba. Its English translation reads as follows:

Further, we would appreciate copies of any replies the CIA may have sent in response to these messages coming out of Cuba relating to plans to assassinate Castro.

Thank you very much for your help with this matter.

Sincerely,

David W. Belin
