Case ID #: (U) 62-HQ-1029205

Title: (U) JFK TASK FORCE

Synopsis: (U) On 8/20/96, the Assassination Records Review Board will formally advise the FBI of their determinations on FBI documents. The FBI has a limited mandated time frame in which to appeal these decisions.

Enclosures: (U) Evidence provided by the JFK Task Force in support of maintaining the postponement and the documents with postponements highlighted. An outline of comments made by the ARRB's General Counsel (Tab A).

62C-HQ-1029205-1335

Details: (U) On 8/20/96, the ARRB will formally advise, by letter to the Director, the determinations voted by them on FBI documents at meetings held 8/5 - 6/1996. The ARRB letter will list 99 documents for which the ARRB made determinations. The ARRB sustained the postponement of 24 true name informants, one of which was classified, and 28 symbol number informants, three of which were classified, until August 2006. The FBI is in agreement with the ARRB's determination to postpone or open information in 26 of the documents and 14 are duplicate documents. The remaining 59 documents the ARRB voted to either sustain some, but not all of the information requested by the FBI or open the documents in full. The release of the information in these 59 documents will reveal the identities of 137 individuals who were described as potential criminal informants (PCI),

To: Criminal Investigative From: Information Resources
Re: (U) 62-HQ-1029205, 08/19/1996

potential security informants (PSI), sources of information, confidential sources (CS) and established sources.

(U) The 59 documents pertaining to the decisions from the current meeting, which the FBI may wish to appeal, are listed below by document number with the information to be released. The current status of informants and sources, if found through research, is noted after the name with living (L), deceased (D), no record (NR) or date of birth (DOB).

(U) The FBI provided written justifications presenting the evidence available to protect the individuals, singular information, technical information, classified information related to methods, sources, and foreign relations as listed above. However, the ARRB supports the position that the information ordered disclosed is relevant and significant to the assassination and that it outweighs any harm that would be caused to the individuals or the FBI's/United States Government's foreign relations, informants, or operational aspects which they voted to disclose.

(U) If CID or NSD recommend appeal, they are requested to provide their opinion and reasons to the JFKTF and OGC by 8/22/96, as the FBI only has 7 days to appeal upon receipt of the letter. If you have any questions, please contact Carol L. Keeley at extension 9494 or Carl Valentine at extension 9476.

Serafin, Jr. (NR), John Alastanas (NR), Charles E. Larck (1940), Lucien Edward Ball (NR), John Dallas (NR), Martin Frey (NR), Jack Penley (NR), Walter J. Burls (NR), and Charlotte K. Bruns (NR). The ARRB sustained the postponement of PCI William H. Reed (L) until August 2006.

The ARRB opened the afternoon session of their 8/6/96 meeting to the public. At this session, Mr. Steve Tilley of the National Archives and Records Administration (NARA) provided an update on the different federal agency's transferral of documents to NARA. Mr. Tilley reported that the FBI had made three transfers since his last public report. Mr. John Pereira and Mr. Barry Harrelson of the Central Intelligence Agency (CIA) presented a sworn statement concerning the CIA's sequestered House Select Committee on Assassinations (HSCA) records. The CIA statement was a historical depiction of the collection, documentation and sequestering of their HSCA records.

The ARRB's General Counsel T. Jeremy Gunn provided an overview of the problems associated with the review of HSCA records. The CIA's HSCA records were collected based on the names of individuals requested by the Committee. Mr. Gunn presented several issues related to the review of the material, such as there is no documentation concerning the theories surrounding the requests, so it is very difficult to determine relevancy to the matter. He made suggestions for guidelines for the review of the material and the determination of the relevance of the material. The ARRB provided a time frame until September 15, 1996 for the public to send the ARRB their comments on this issue.

Should the ARRB Board accept their staff's recommendations, the guidelines will be applied to their review of the FBI's HSCA documents. However, if the public requests the ARRB to have the FBI respond to the matter of its HSCA records or the Board accepts different guidelines, which cannot easily be applied to the FBI's records, the FBI may be requested to present a sworn statement concerning its HSCA records.

The ARRB staff suggested guidelines are:

1. The ARRB staff reviews all records and files in the HSCA collection.
2. The documents determined to be relevant by the staff will have the postponements reviewed word by word by the Board, as was done in the core files.

To: Criminal Investigative From: Information Resources
Re: (U) 62-HQ-1029205, 08/19/1996

3. The files determined not to be relevant by the staff will be described in a memorandum identifying the file and describing the review process and the explanation as to why the document is not relevant.

4. The files having some documents which are relevant to the assassination will receive a word by word review of the postponements by the Board for the relevant portion and a memo as described in #3 for those not relevant documents.

5. Any files on microfilm which have not already been processed will be reviewed word by word.

6. In files which only a portion of the document is relevant that particular portion could be released and the irrelevant matter could be redacted.

When the ARRB provides their guidance to their staff, the JFKTF will advise OGC as to what impact this may have on the FBI.

Re: JFK Task Force

ADDENDUM: INTELLIGENCE SECTION (IS), CRIMINAL INVESTIGATIVE
DIVISION (CID); 8/22/96; PMP:pmd

Reference 8/3/95 CID addendum to memorandum dated
7/28/95 to William E. Baugh, Jr. from John A. Hartingh, entitled
"JFK Task Force."

Based on the general rationale articulated in the
referenced addendum, and that set forth below, the CID takes the
following position with regard to those proposed releases
relating to CID sources.

Tab 1) PSI Arturo Gonzalez - No recommendation - This
source was administered by the National Security Division (NSD);
accordingly, the NSD should make the appeal determinations.

Tab 2) PCI David Goldberg - Appeal - This individual
was unable to provide any information relating to the Kennedy
assassination that would justify a public compromise of his
identity. Absent a showing either that he has been contacted
about and has agreed to the proposed disclosure or, if he is
dead, that an attempt was made to contact his survivors, the CID
cannot support the release.

**Tab 3) PCIs Henry Edward Getz, Reuben Zinman, Frank
Kish, and Arthur Hurd - Appeal** - These individuals were unable to
provide any information relating to the Kennedy assassination
that would justify a public compromise of their identities.
Absent a showing either that they have been contacted about and
have agreed to the proposed disclosure or, if they are dead, that
an attempt was made to contact their survivors, the CID cannot
support the release.

Tab 4) PCI Thomas J. Stapleton - Appeal - This
individual was unable to provide any information relating to the
Kennedy assassination that would justify a public compromise of
his identity. Absent a showing either that he has been contacted
about and has agreed to the proposed disclosure or, if he is
dead, that an attempt was made to contact his survivors, the CID
cannot support the release.

**Tab 5) PCIs George Edward Bauer and William Burton
Dodson - Appeal** - These individuals were unable to provide any
information relating to the Kennedy assassination that would
justify a public compromise of their identity. Bauer has been
confirmed as dead; however, absent a showing that an attempt was
made to contact his survivors, the CID cannot support the

ADDENDUM: IS, CID; 8/22/96, PMD:pmd (CONT.)

compromise of their identities. They have both been confirmed as deceased; however, absent a showing that an attempt was made to contact their survivors, the CID cannot support the release.

Tab 12) PCI Dino Lucci - Appeal - This individual was unable to provide any information relating to the Kennedy assassination that would justify a public compromise of his identity. Absent a showing either that he has been contacted about and has agreed to the proposed disclosure or, if he is dead, that an attempt was made to contact his survivors, the CID cannot support the release.

Tab 13) PCIs James W. Harper, Thelma Harkey, Eugene Bennett, and Dick Polk - Appeal - These individuals were unable to provide any information relating to the Kennedy assassination that would justify a public compromise of their identities. Absent a showing either that they have been contacted about and have agreed to the proposed disclosure or, if they are dead, that an attempt was made to contact their survivors, the CID cannot support the release.

Tab 14) PCIs Ora W. Yorskey, Francis Finch, Claude Shell, Joseph Berry, Charles Pavlos, Dominick Specca, Louis Price, Irene Nitz, Joseph Esposito, Anthony Rendina, Robert Lee Horn, Logan Anthony Gallagher, Mack Devern Dixon, James Mickey Reese, James Ashford, James Holsey, and James Charles Rettaliata - Appeal - These individuals were unable to provide any information relating to the Kennedy assassination that would justify a public compromise of their identities. Absent a showing either that they have been connected about and have agreed to the proposed disclosure or, if they are dead, that an attempt was made to contact their survivors, the CID cannot support the release. Gallagher has been confirmed as deceased; however, absent a showing that an attempt was made to contact his survivors, the CID cannot support the release. Although the ARRB has sustained the postponement of Rettaliata until the year 2006, we assert that the identity of Rettaliata continue to be postponed even after that date.

Tab 15) PCIs Eugene Morris Riley, Charles Pharo, Esther Wright, Israel Coplon, Louis Koplun, George Harrison, and Jones Anderson - Appeal - These individuals were unable to provide any information relating to the Kennedy assassination that would justify a public compromise of their identities. Absent a showing either that they have been contacted about and have agreed to the proposed disclosure or, if they are dead, that an attempt was made to contact their survivors, the CID cannot support the release. Coplon has been confirmed as deceased; however, absent a showing that an attempt was made to contact her survivors, the CID cannot support the release.

compromise of his identity. He has been confirmed as deceased; however, absent a showing that an attempt was made to contact his survivors, the CID cannot support the release.
