**Subject:** Los Alamos computer scans of Zapruder  
You recently asked me to try and confirm if NARA had the above scans as referenced in HSCA documents. Dave Montague was way ahead of me... the scans are listed in an inventory Les Waffens's group put together at Dave's request. I've attached the relevent section of the inventory to the hardcopy version of this E-mail. You'll notice that, although NARA has them, the inventory states that "no software is currently available to read these tapes."
