Subject: Re: Our News Release on Our Subpoena of Connick and Garrison Records
Tom, The plot thickens!! Have you or Jeremy figured out Wessell's place in the byzantine world of the "Big Easy?" The interview with KRLD was a success. Kathy was a better host than the person on the morning show, and there were many calls waiting when the show was over. Of course, like all such "45 minute" segments it was full of weather reports, ads, etc. The first question was....you guessed it, the brain. One person had read all three volumes of Epstein and wanted to know about the Cubans, and someone asked a good question on the medical evidence so I had the perfect opening for that. Of course you cannot get the full flavor of KRLD, Ft. Smith by reading this report. You need the flavor of accent and intonation. I'll be happy to illustrate both.....
