Subject: microfilm

In case I don't get a chance to talk to you this evening, regarding the microfilm: On roll 264 I came across the beginning of quite a few docs related to "the authority to blockade Cuba." I think these would be considered relevant, so I printed a couple pages. Let me know if I should 1) print out all pages I think are relevant, and 2) how I should proceed. ie - do you want to see this portion of the film, should I make notes about this section, or do you think it's not relevant. Thanks, Cathy
