Subject: Re: The "Rifle" (fwd)

Proposed question to Lt. Day from the DPD...----- Forwarded message -----Date: Mon, 3 Jun 1996 15:14:23 -0600From: Richard Bartholomew <bart@admin.inetport.com>To: Rick Nelson <rnelson@connect.reach.net>Cc: jfk-conspiracy@kendaco.telebyte.netSubject: Re: The "Rifle" If a researcher does manage to contact Lt. Day and talk to him, please ask him to also explain exactly where, and in what condition, the alleged CE575 Mannlicher ammunition clip was found. Was it found on the sixth floor at all? Lattimer asked him about this in 1968 and got no answer. Posner asked a non-question about it and got a non-answer. The Report cites Day and Fritz to support their claim that it was "contained...in the rifle" (p.555), but neither mentioned the clip in their testimony. If so, was it bent (the HSCA's claim for why it was stuck)? DPD crime lab photos show it was not bent. The 32-year silence about the clip has been deafening and somebody's lying!
