Subject: Tests on CE567

After reviewing several news accounts over the weekend regarding theARRB's request that the FBI test the fibrous material on the bulletfragment known as Warren Commission Exhibit 567, I hope you will take steps to ensure that the testing protocol does not overlook the possibility, albeit highly theoretical in my opinion, that the material may be matched (or excluded from matching) the items of clothing worn by Governor John Connally. Sincerely yours, Roger Bruce Feinman,
Esq. _____ Get Your Private, Free Email at
