Subject: autopsy deposition inquiry

A man named Stewart Galanor called to request a copy of the transcripts of the depositions. I gave him our standard response of "they will become part of the public record--will be available at the Archives..." He wanted to know why there was a delay in the release of the transcripts, and I told him that it is an ongoing project and we do not wish to hinder our search for the (possible) location(s) of records . With that he asked for your name and wanted to suggest to you possible questions for the autopsy doctors. I told him that was fine, could he please put the suggestions in writing, and I would make sure you saw them.
