Subject:	Changes to By RIF and Owner View
Body:	I have made some changes to the this view in the RT database. The view still shows the postponement details but adds more information.The format is as follows:The RIF number ^ Page Rec Postponement code Action Date Sub Language and the Short Board Reason.The Short Board Reason is a pointer to the longer board reason kept in the postponement detail.I hope this new format makes it easier to see important info without loading the postponement detail itself. If you have any feedback on this please let me know. I would like to extend this to our other views that have postponement details.Thanks
