Subject:	No Name Committee (Augmented) Meeting
Body:	On Wednesday, October 29, beginning at 10:00 a.m., we will be having a meeting to discuss the status of all agencies with which we deal. I would like each person with appropriate responsibilities for the agencies to provide brief updates on: the status of records review; referral issues; requests for additional information and records; major compliance issues; and any other important issues that should be addressed on an agency-by-agency basis. No Name Committee members should attend throughout. Others should at least be on standby to discuss your agency. To the extent that you would like to know (or need to know) the status of these issues, you should attend the appropriate parts of the meeting.I would like to cover all important issues for all agencies. Be advised, however, that no minutia will be permitted! I am asking Michelle to prepare a master list of all agencies (organized in logical groupings, e.g. all military together, NARA and all presidential libraries together, etc.) Ron has a compliance chart that may provide the basis. We will distribute that list on Tuesday, so that you will know approximately when your agency will be on the agenda.
