Subject: Privacy summary page

I copied the privacy key issues summary page onto the "g" drive at "prkeyis.wpd" . Feel free to do what you wish with it. It's in the briefing book immediately before my memo, but could be easily transformed into a decision document to focus the Monday morning discussion. Feel free also to call me over the weekend (202-462-5406) if you want to talk about the Monday presentation.
