**Subject:** Notes stuff

Added the new mail database for A&R Supervisor. Use the add database command look in the MAIL Subdirectory. Got a lot of progress made. Have the lookup in the Staff review form working well. Could use more formatting. Spent a lot of time working on the mail stuff. It works. Try clicking on the mail to supervisor button and then look in the A&R Database. Also the supervisor can mail it back if it is disapproved. I was able to get the failsafe fields working in the staff review form. So they must have a rif selected to make it work correctly. I added and moved several buttons. To use the control buttons you need to be in the edit mode. It will update the status. Good luck and see you on Monday
