Subject: Database

Added a lot of the buttons and new views. You might need to generate new Postponement Docs to make things work right, If you have time delete the old stuff and generate new Staff and Board and postponement forms. You do not need to bring in new RIF forms. Its starting to look good. I added the data feature to the Board form. I left it listing all the dates with the soonest first. I can cut that to one date but it looked nice with more. (I guess if it was 100 it would look bad) See you at 4:35 and good luck, page me at 1-800-449-7076 with any questions.
