Subject: Possible subjects for subpoenas

David and Jeremy (as Acting General Counsel) - we've had several conversations that have touched on the possible use of subpoenas to obtain assassination records where the holders of the records have refused to provide them to the Collection (or have functionally refused by ignoring our requests for records they admit they have).As a preliminary list the following three individuals have admitted they have assassination records (or a family member admitted they have the record(s): 1) Mrs. Francis Martello - letter, brochures LHO had in his possession when NOPD arrested him on 8/9/63. Through her daughter-in-law Kathy Martello, Mrs. Martello refused to provide the originals or copies. (see investigative issue #8) 2) Bob Grevemberg - former NO police officer. Has photos of LHO, Ferrie, CAP from NOPD files. May have other assassination related photos. Admitted to me in meeting on 5/15 that he had photos and would try to locate. I've contacted him twice since then but received no response. Gus Russo told me Grevemberg will promise and promise but never deliver. 3) Gary Savage - nephew of former Dallas police officer Rusty Livingston. Author of "JFK - First Day Evidence." In a telephone interview with me Savage refused to provide information or photos to the ARRB. Photos made by Livingston while he was on the job as a Dallas police officer.ALSO - A subpoena would be a more cost effective and efficient manner to learn the name of Don with the unlisted telephone number in investigative issue #20. Federal law enforcement agencies (and others with investigative powers) frequently subpoena telephone companies for information about unpublished numbers.
