Subject:	University of Miami - possible sources of records
Body:	In preparation for my interview with Gene Wheaton tomorrow I've read Chris' memo from his interview with Brad Ayers (Ayers told Jeremy that Wheaton is being fed dis-information to provide us, but that Wheaton is not aware he is receiving dis-information.) On page 9 of his memo about the interview Chris suggested getting records from the University of Miami about JMWAVE. Is this something to include in my quest for records in Florida?
