Subject: Errors in list of CIA document given to Federal Register

Body: Bob has found an additional error in the listing that ARRB gave the Federal Register: #104-10015-10359 was listed (according to the copy Noelle gave us) as "Open in Full," whereas it should have read, "Postponed in Part." Instead of 8 releases and 0 postponements, it should read 6 releases and 2 postponements, with a 2017 rereview date. This was another document that was listed correctly in the document I gave David (a correction to Chet's listing), but that acquired mistakes after that point. I was never shown the final list before it went to the Federal Register. Might it not make sense for me to see it next time just before it goes?
