Subject: Re: JFK-ARRB.GOV registration

Body: Please check the last paragraph for Security issues.I will call the helpdesk and try to get more concrete answersTo: Chet Rhodescc: From: starke @ unix.worldcom.com @ Internet @ WORLDCOM Date: 09/14/95 09:10:55 AM CDTSubject: Re: JFK-ARRB.GOV registration> We would fall under the GOV area. We are a top level Agency created by > congress. If the NIC people ask I can send them a copy of our congressional > act.> thanks, we may have to send them some sort of information. > My director has some questions about the security of our system now that we > have this connection who would be a good person to email with about that?> Probably the best place to start is to call the WorldCom help line. Do you have a direct Internet connection, or are you using a modem to callWorldCom? If you have an Internet Service Provider who has you directly onthe net, then there are definite security issues you should be aware of,which your service provider would probably be able to best advise you on. Ifyou are just using a modem to connect to WorldCom and send/receive mail, your security risk is very minimal, if it even exists. The folks at the Help desk will be able to better explain this.Sean -- Sean Starke <starke@worldcom.com> (713) 650-6522 x42WorldCom System AdministratorWolf Communications, Houston, TX http://www.worldcom.com/~starke
