Subject:	GumShoe Issue 9
Body:	Chet - something in issue 9 has me puzzled. Many of the dates of various entries in the system are out of chronological date order. When I go into this issue to read what Dave is working on I'd like to be able to just read the new entries without having to scroll through the whole issue to find them. Can you figure out what's going on and correct it? Thank you.Dave - try placing the cursor or highlighting the main issue heading hwen you compose in that issue (as opposed to highlighting a prior entry and then composing something new. That may help.)
