Subject:	Door not locked - potential security breach
Body:	When I arrived this morning at 7:14 I swiped my card and much to my surprise the door opened, although there was no one here. (I always check it first in the event Noelle or Jeremy are already here.) The alarms went off. I used my code and de-activated them, but it appears the door was left unsecured all night. I checked the offices but did not find anyone else here, nor anything obviously amiss.
