Go with it...To: David Marwell/ARRBcc: Chet Rhodes/ARRB From: Joseph Freeman/ARRB Date: 12/07/95 01:28:50 PMSubject: Need your imprimatur on Final Determination Form issueWe're working on final determination forms for the 178 HSCA payroll folders processed at the Board's October meeting. Because there were so many payroll records and because all the postponements were Social Security numbers, individual postponement forms for each SSN were not done. This poses a problem at the Final Determination Form stage because the form as set up requires information regarding individual postponements, their page number within the document, etc.Chet is intending to do a HSCA-payroll specific program so that all 178 can be kicked out at once where the field won't require a specific postponement # and corresponding page #.The question then becomes, what do we put in its place? Recommedation...Postponements: All the postponements in this document represent Social Security numbers.PS - It would be very helpful to have closure on this today while Chet is here to make whatever changes are decided upon.Thanks in advance.
