Subject:	Entex order
Body:	Well did I have a surprise, I went to put in one of the network cards I ordered awhile ago into davids new machine and it is the wrong kind of card. Can you pull the order for 5 3com 3c509B cards from a month or so ago. We can go over it when we talk next. I am pretty sure we ordered the correct items and they shipped the wrong thing again. The problem is that from the outside the boxes look exactly alike.I also have a couple other order glithes to discuss when I get in.thanks in advance.
