Subject: Determination forms

Body: There are still some bugs.The information for the Agency Redaction Detail does not carry over to the determination form. So all I have are blank fields, even though the information has been entered in the postponement details.For a few documents, postponement details do not appear even though a postponement voting form has been created for them- for example #2-4 in 104-10015-10090, a digraph redaction. This is more often the case when the redaction is a true name issue which is due for reconsideration 3/96. These true names are a problem for the "date of next release", since they are clearly not due for release on this date. This special status should be noted both here and in the Federal Register Notice.
