Subject: Final Determination Forms- special language.

I think that I need to be able to insert text in the date of rereview field of a few Final Determination Forms. Let me explain. As I was processing the documents from the 11/14/95 meeting, I encountered a few postponements which contain true name issues and have 12/1995 for rereview. Since the Board did reconsider these issues at the December meeting and since we will be sending these documents to NARA next week- in 1996, it is appropriate to note on the form that the Board will rereview them again 03/1996. But it also is necessary to include the 12/1995 date, since it reflects the action of the Board at the November meeting. It seems that the date of rereview is the logical place for this information. So I tried adding a short sentence to the Postponement Voting Form. Unfortunately, it doesn't carry over to the Final Determination Form. What do you suggest? Can we make the field editable on the Final Determination Form? Can we add this information without making the system self-destruct? I hope that this is a one time requirement, but I can't be sure. Thanks for your help.
