Subject: Memo on Audit Activities

Here is a very rough draft. So far, the memo largely consists of my notes from reading through the statutes and the circulars. As I say in the introduction, I will extract from the statutes and OMB directives a short list describing the most concrete statutory requirements. As you will see from what I have included so far, the statutes, and especially the OMB Circulars, consist largely of business-world jargon (e.g. "Federal managers" should "ensure results-oriented management.") The cites are very, very rough, but you should have most of the materials in the packet I gave you on Friday.
