Subject: Confirmation With Steven Tilley Re: Availability Of 12 HSCA Photographic Materials
CALL REPORT Issue # 9Document's Author: Dave Montague/ARRB Date Created: 01/22/96 The Players Who initiated the call? Review Board's representative in the call: Dave MontagueIndividual's Name:Description of the Call Date: 01/22/96Subject: Confirmation With Steven Tilley Re: Availability Of 12 HSCA Photographic MaterialsSummary of the Call: I spoke with Tilley today and he confirmed that he will have the material ready for me to start reviewing in the afternoon on 01/23/96. According to Joe Freeman their are 12 approximately boxes HSCA Photographic Materials at NARA and Box #1 contains a list of photos used by the HSCA. He made the following comments regarding material: "HSCA Numbered Photographic Materials record series - I don't know if you're aware of this or not, but there is a 12-box Numbered Photographic Materials record series out at NARA II that Steve Tilley could pull for you next time you're out there. If you haven't done this yet, you should. The record series (in Box 1) contains a handwritten index/list of photos used/obtained by the HSCA. I copied the index and gave it to Anne at some point months ago. This record series in is our computer database. I've attached some sample RIFs FYI. There is also a single-box HSCA record series entitled "Firearms Panel Photographic Evidence." I've never looked at it, but you may want to ask Steve to pull that one, as well."* I also want to check on the following if time permits: "DOE/Los Alamos - Donald H. Janney (who usually went by "D.H. Janney" in the correspondence) headed up the Los Alamos Scientific Laboratory (LASL) study/enhancement work on the Zapruder film. Los Alamos worked with Aerospace Corp. and the Image Processing Institute at USC (a Prof. H.C. Andrews) on the project. There are approximately 35 documents in the HSCA Numbered Files record series associated with this effort. Again, I have copied and attached potentially relevant documents. I've also separately attached a set of RIFs for documents (among the approx. 35 cited above) which I scanned but did not copy. Of the copied documents, you might find File Number 013687 (Record Number 180-10100-10235) useful -- it contains a list of names of Los Alamos personnel who worked on the project (and who signed non-disclosure agreements)." Steven Tilley's phone number is 301-713-6620
