Subject:	DOD referred/redacted documents in the HSCA Numbered Files
Body:	Mine and Doug's trip to NARA II today provided a far firmer number of documents with which we will have to deal with DOD on. Within a reasonably small margin of error, the numbers are as follows: DOD documents not in open files at all (withdrawal slip) 20DOD/third agency documents not in open files at all (withdrawal slip, multiple referral) 6DOD documents present at NARA II with redactions 12TOTAL 38This is a smaller actual number when compared with the theoretical number provided in my memo of earlier this week, but some documents whose RIFs indicated they were referred were actually open in full at NARA II and other documents (approx. 5) contain only SSN redactions, so we don't need to go back to DOD for evidence in support thereof (we can just have the Board vote to uphold).Doug and I will get an actual document by document list to Tim in whatever time-frame Doug and Tim decide is reasonable.Remember, these numbers don't reflect the Security Classified File series.
