**Subject:** Additional Congressional records - Bella Abzug and Sen. Edward Long

Steve Tilley has brought the following two subjects to my attention, which may be old news: Abzug Committee - Bella Abzug was, at one time, Chairperson of the Govt. Information and Individual Rights Subcommittee of the old House Government Operations Committee. In this capacity, she held some sort of hearing(s) on the Kennedy assassination. Steve believes it was focused on medical evidence, perhaps the safekeeping/chain of custody of same. He remembers that Marion Johnson of NARA testified and was put through a bit of a hard time. Steve has some sort of file on all this, which I have yet to look at, but he stressed that it was by no means comprehensive. Sen. Edward Long - Steve has heard that Sen. Edward Long may have held some kind of assassination-related hearing -- under the auspices of the Administrative Practices and Procedures Subcommittee of the Senate Judiciary Committee -- back in 1968 which referenced a Gordon Homme and Castro/JFK. NARA has no record of anything of this description. Legislative Archives spoke with someone on the Judiciary Committee last year, and got nowhere. At the Judiciary Committee's suggestion, NARA also contacted the Univ. of Missouri (where Long's papers are) and they couldn't find anything either. FYI, but any thoughts/suggestions would be taken in the spirit in which they were offered!
