Subject: Lotes Server
Body: When I logged in this morning the Notes server was not responding, so when I checked it had the same error message from last week. The error message was, System error OS/2 Agent SYS0039, The D: device is not ready, Options, Return error code to program, End program/command/operation, Retry command or operation. I clicked on, End program/command/operation and then the Notes server was responding at normal speed. In addition the macros did not run.
