**Subject:** Re: Response to Your Message

Dave - Here is an e-mail I received from Gordon Winslow today. Please review. He has raised additional records to pursue. I do not know if there is any indication in the files about what Anne did. You may want to check in with David if you have questions about how far to proceed. David - I would be glad to meet to discuss the additional materials raised by Winslow in his e-mail to me. It's always a pleasure to communicate with another New Englander....we speak with the correct accent!!>>> A brief look did not reveal references to Rolando Masferrer or Eladio del Valle. Did you specifically mention these individuals to her? <<<On Masferrer, I'm not sure. Eladio del Valle was mentioned and was indicated to her that the homicide case file was a major priority for the ARRB. His name came up last December in Nassau. (Ask Jeremy Gunn) The Cubans believe del Valle was a major player in the JFK assassination. They also believe anyone connected to him was also. Masferrer was one of his buddies. As I told you, the CIA released a 17 year old FOIA to me last June on Masferrer. Part of the records were released under the JFK Materials Act. I also told Anne Buttimer to get the John Roselli homicide case file. Other to obtain are DeMohrenshield, Carlos Prio, and Jose Aleman. She was most interested in getting Miami Police files on Cuban groups. I gave her an index of County Organized Crime files which are in the Clerk's Archives. These are public record, probably until someone finds out that I saved them. Although I have authority to save any police file, these files might be determined to not be in the best interest of the police department if they got out. I have most on microfilm. Nobody yet has accessed them so they are as they came to me.....nothing missing. I just received 13 more archival boxes of similar files. Next week I will have my assistant microfilm those also. There is always a need to have a backup copy in case of fire or theft. If you need anything else, let me know. Gordon
