Preliminary research turns up little-- Nothing in "The Third/Fourth Decade" issues you provided.-- Nothing in "Oswald and the CIA" by John Newman.-- Nothing in the P.D. Scott Manuscript of his next book.-- Nothing in "Deadly Secrets" by Turner/Hinckle.-- Minimal reference in the M. Farrell database.-- Minimal references in Steven Tyler's testimony to the ARRB, 6.28.95. We are going to follow up the minimal references tomorrow; we will also be checking other sources, including "Deep Politics" by P.D. Scott, for any references, as well as checking with Doug. We expect to have the first draft of CIA-Request 10 by COB Friday. We expect that further research may well be needed on this issue before a final draft can be completed.
