My conviction is as it has been: that we need to organize our work and probably expand our investment of time to oversee and direct staff effort and to insure that we as a Board process and release MANY MORE DOCUMENTS than we have to now. Otherwise, I fear that we will be severely criticized, not only for a lack of effective output, but also for hampering release of documents in other areas. Witness Tim Weiner's article in the "Times" earlier this week on the CIA and the FBI detailing FOIA staff to work on the JFK Collection. All this is to encourage you and David to plan for a serious Board discussion of these matters next week when we gather in Washington. I think it essential that we focus our attention on this critically important topic. Hoping that you had a pleasant and relaxing vacation and that your shakedown cruise as a federal judge continues to go smoothly for you, --Bill
