Subject: Next Board meeting, etc.

Body: FYI.To: Jeremy Gunn/ARRBcc: Bob Skwirot/ARRB, Michelle Seguin/ARRB From: Mary McAuliffe/ARRB Date: 06/28/96 02:44:14 PMSubject: Next Board meeting, etc.Best estimate of number of documents we will have ready for Board review: 200 from boxes 1-5, JFK papers; 6 or 7 from Oswald file; 50-60 name trace documents, Oswald file; approximately 18 leftovers from previous meetings. Total: in the area of 275. Could you arrange for Michelle to help me with supervisory review? She can pass along to me any on which she has questions. I'll be back on Friday, but that won't give me enough time to review the entire batch the team will be reviewing next week, unless these documents turn out to be entirely routine. By the way, CIA seems to be releasing huge numbers in the JFK papers by consent release. Note also that since CIA can't get us the Lopez report by this next meeting, they're really cranking out the JFK papers for us.Other topics/issues for Board: Barry will have several 201 files ready for team review early next week. I've arranged for Bob and Michelle to go. Personnel files probably won't be ready by then.Requests for additional information and records from CIA: Barry will talk with Michelle about the status of CIA-1 when she goes over to look at 201 files with Bob next week. Barry will call you early next week with an update on the other outstanding requests.
