Subject: Board Meeting and Document Review

Mary, I hope that you had a relaxing and enjoyable vacation. Welcome back. While you were away, Bob, Manuel, and I completed review of approximately 160 documents, bringing our current total of documents available for this meeting to 200. We have separated them into two piles, Routine and Non-Routine. (The documents are on your chair in the SCIF.) There are approximately 141 routine and 18 non-routine. There was one non-routine document, 104-10048-10124, that I need to discuss with you. I showed it to Jeremy. He asked me to call Barry and ask him for more evidence, and Jeremy called Linda Cipriani to request the Agency's policy on matters contained in the document. The document is on the top of Non-Routine pile. Also, Bob and I went to Rosslyn on Tuesday to review the 201s that Barry had pulled. They are good examples of files with a large amount of non-relevant information. We also reviewed Kostikov's file as an example for a file with relevant information. I suggested to Barry that the Board may wish to review another file, in addition to Kostikov's, with relevant information. He said that he would discuss this with you and Jeremy on Friday. I will be in the office on Friday, so we can talk about any questions that you may have. See you then.
