Subject:	Reviewtrack "third agency equity" field
Body:	I think the following features would be helpful:(1) A view sorted by which third agency has the equities.(2) A macro that would allow you to select a number of rifs, have them copied into the reviewtrack, and have a particular "third agency" plugged into the "third agency equity" field. Right now, I have piles of hard-copy rifs for FBI documents on which I have written, "cia equity," "dea equity," etc. Such a macro would allow an efficient dumping of these informational categories into the reviewtrack.Chet, let me know if this (or a reasonable approximation of this) is feasible. Thanks.
