Subject: Backes and Scelso
Reference: Backes e-mail 6/28/96.I think we could say something like the following.The ARRB is very much aware of the research community's interest in knowing the identity of the person identified in the records under the pseudonym of "John Scelso." The ARRB received extensive information about the true identity of Mr. Scelso as well as reasons that, in the judgment of the Board, the identity of Mr. Scelso should be protected for five years, after which his true name will be revealed.The ARRB is obtaining additional information regarding Mr. Scelso's work at the CIA both before and after the assassination. Much of this information has already been revealed in Mr. Scelso's sworn testimony before the HSCA , which will be made available to the public. In addition, the information gathered by the ARRB regarding Mr. Scelso also will be made available within the next year.
